Ballantine, Our Social World: Condensed, 6e SAGE Publishing, 2019

Chapter 2: Examining The Social World: How Do We Know What We Know?

Test Bank

Multiple Choice
1. Prior to the 19th century, approaches to understanding society a. had a strong moral tone b. involved systematic data collection c. involved objective analysis d. applied the scientific method Ans: A Learning Objective: 2.1: Outline the development of sociology. Cognitive Domain: Comprehension Answer Location: Development of Sociology Difficulty Level: Easy
2 was the first person on record to suggest a systematic approach to explain the social world. a. Plato b. Auguste Comte c. Ibn Khaldun d. C. Wright Mills Ans: C Learning Objective: 2.1: Outline the development of sociology. Cognitive Domain: Knowledge Answer Location: Development of Sociology Difficulty Level: Medium
3. The Industrial Revolution led, in part, to the rise of sociology because a. Europeans sought to understand the rapid changes occurring in society b. the advent of mechanized labor made people distrustful of religion and philosophy c. Karl Marx's critique of the bourgeoisie inspired the proletariat to embrace this new school of thought d. those who had been farmers pursued the social sciences when they found themselves unemployed Ans: A Learning Objective: 2.1: Outline the development of sociology.

SAGE Publishing, 2019

Cognitive Domain: Comprehension

Answer Location: Rise of Modern Sociology

Difficulty Level: Medium

- 4. When Auguste Comte coined the term *sociology* in 1838, what two basic questions did he ask?
- a. What holds society together and gives rise to a stable order? Why and how do societies change?
- b. How do humans define or make sense of situations? How do we learn our social roles in society?
- c. How do societies achieve social consensus? How do people internalize shared beliefs and rules?
- d. How does inequality create injustice? How does conflict function in society?

Ans: A

Learning Objective: 2.1: Outline the development of sociology.

Cognitive Domain: Comprehension

Answer Location: Rise of Modern Sociology

Difficulty Level: Medium

- 5. Auguste Comte saw society as divided into which of the following parts?
- a. social statics and social institutions
- b. social institutions and social processes
- c. social units and social institutions
- d. social statics and social dynamics

Ans: D

Learning Objective: 2.1: Outline the development of sociology.

Cognitive Domain: Knowledge

Answer Location: Rise of Modern Sociology

Difficulty Level: Medium

- 6. A _____ is a basic view of society that guides sociologists' research and analysis.
- a. theoretical perspective
- b. scientific method
- c. ethical analysis
- d. hypothetical approach

Ans: A

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Knowledge

Answer Location: Sociology's Major Theoretical Perspectives

7. Statements or explanations regarding how and why two or more facts are related to each other and the connections between these facts are known as a. theories b. concepts c. values d. perspectives Ans: A
Learning Objective: 2.2: Describe key theoretical perspectives.
Cognitive Domain: Knowledge Answer Location: Sociology's Major Theoretical Perspectives
Difficulty Level: Easy
8. A good theory allows social scientists to make about the social world. a. theoretical perspectives b. predictions c. value judgements d. rules Ans: B
Learning Objective: 2.2: Describe key theoretical perspectives.
Cognitive Domain: Comprehension
Answer Location: Sociology's Major Theoretical Perspectives
Difficulty Level: Medium
9. Which statement accurately describes an underlying assumption of symbolic interaction theory?
a. People create shared meanings and interact based on those meanings.b. People are self-interested, making decisions based on weighing potential costs and rewards.
c. All parts of the social structure interact to make a society run smoothly. d. Interaction breeds conflict, and conflict underlies all social relations. Ans: A
Learning Objective: 2.2: Describe key theoretical perspectives.
Cognitive Domain: Knowledge
Answer Location: Symbolic Interaction Theory Difficulty Level: Medium
10. More than any other theory in the social sciences, symbolic interaction theory stresses the role of a. social statics

- b. social dynamics
- c. human agency
- d. anomie

Ans: C

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Comprehension

Answer Location: Symbolic Interaction Theory

Difficulty Level: Hard

- 11. Which of the following sociologists placed special emphasis on human interpretations of gestures and symbols and the meaning we attach to our actions?
- a. August Comte
- b. Karl Marx
- c. George Herbert Mead
- d. Émile Durkheim

Ans: C

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Knowledge

Answer Location: Symbolic Interaction Theory

Difficulty Level: Medium

- 12. One critique of symbolic interaction theory is that it _____.
- a. neglects the micro-level structures of society that affect human behavior
- b. neglects the macro-level structures of society that affect human behavior
- c. does not explain social changes in society, such as conflict and revolution
- d. overemphasizes social stress, power dynamics, and disharmony

Ans: B

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Comprehension

Answer Location: Symbolic Interaction Theory

Difficulty Level: Hard

- 13._____ theory states that humans are fundamentally concerned with self-interests, making rational decisions based on weighing costs and rewards of the projected outcome of an action.
- a. Symbolic interaction
- b. Rational choice
- c. Structural-functional
- d. Conflict

Ans: B

Learning Objective: 2.2: Describe key theoretical perspectives. Cognitive Domain: Knowledge Answer Location: Rational Choice (Exchange) Theory Difficulty Level: Easy 14. According to rational choice theory, people stay in relationships because ... a. they derive meaning from the interaction b. they get something from the exchange c. partnerships make society run more harmoniously d. they fear conflict and change Ans: B Learning Objective: 2.2: Describe key theoretical perspectives. Cognitive Domain: Comprehension Answer Location: Rational Choice (Exchange) Theory Difficulty Level: Medium 15. One critique of rational choice theory is that it ... a. gives little attention to micro-level internal mental processes, such as self-reflection b. does not explain social changes in society, such as conflict and revolution c. gives too much attention to macro-level structures of society that affect human behavior d. assumes a stable world Ans: A Learning Objective: 2.2: Describe key theoretical perspectives. Cognitive Domain: Comprehension Answer Location: Rational Choice (Exchange) Theory Difficulty Level: Hard 16. The structural-functional perspective states that ... a. all parts of the social structure work together to make society run smoothly b. a person's choices determine the individual's place within the social structure c. those with power exert their will over those without power d. social status is in the eye of the beholder Ans: A Learning Objective: 2.2: Describe key theoretical perspectives. Cognitive Domain: Knowledge Answer Location: Structural-Functional Theory

17. Adam wants to study why men choose to go into nursing careers. He theorizes that

Instructor Resource Ballantine, Our Social World: Condensed, 6e SAGE Publishing, 2019

men are heavily recruited into nursing because their physical strength and presence in is

hospitals benefits both patients and other hospital staff. Which theoretical perspective Adam using? a. symbolic interaction theory b. rational choice theory c. structural functionalism d. conflict theory Ans: C
Learning Objective: 2.2: Describe key theoretical perspectives. Cognitive Domain: Comprehension Answer Location: Structural-Functional Theory Difficulty Level: Hard
18. A manifest function of war is a. boosting manufacturing b. encouraging technological innovation c. defending territory d. inspiring patriotism Ans: C Learning Objective: 2.2: Describe key theoretical perspectives. Cognitive Domain: Application Answer Location: Structural-Functional Theory Difficulty Level: Hard
19. A latent function of war is a. defending territory b. obtaining resources c. protecting citizens and residents d. inspiring patriotism Ans: D Learning Objective: 2.2: Describe key theoretical perspectives. Cognitive Domain: Application Answer Location: Structural-Functional Theory Difficulty Level: Hard
20. Functional actions contribute to the stability of society whereas are those actions that undermine the stability of society.

- a. manifest functions
- b. latent functions
- c. dysfunctions

SAGE I abilishing, 20
d. surjection functions
Ans: C
Learning Objective: 2.2: Describe key theoretical perspectives.
Cognitive Domain: Knowledge
Answer Location: Structural-Functional Theory
Difficulty Level: Easy
21. The conflict perspective states that
a. conflict is dysfunctional
b. conflict is inevitable and that inequality and injustice are the source of conflicts
c. people keep a mental ledger in their heads about whether they owe or are owed
something
d. groups of people look out for each other and try to obtain resources and make sure
they are distributed equally
Ans: B
Learning Objective: 2.2: Describe key theoretical perspectives.
Cognitive Domain: Knowledge
Answer Location: Conflict Theory
Difficulty Level: Easy
22. Karl Marx primarily viewed conflict in terms.
a. gendered
b. economic
c. religious
d. racial
Ans: B
Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Comprehension Answer Location: Conflict Theory

Difficulty Level: Easy

- 23. Harriet Martineau argued that societies should be judged by how well they treat the most oppressed members of society. Which of the following sociologists shared her concern for advancing a more just society, asserting that the ultimate goal of sociological work should be social improvement?
- a. George Herbert Mead
- b. Henri Saint-Simon
- c. W. E. B. Du Bois
- d. Émile Durkheim

Ans: C

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Comprehension Answer Location: Conflict Theory

Difficulty Level: Medium

- 24. How did Ralf Dahrendorf explain why Karl Marx's predictions never came TRUE?
- a. Marx placed too much emphasis on the role of interest groups in society.
- b. Marx incorrectly assumed that conflict is based on authority.
- c. Marx underemphasized the divisive nature of conflict
- d. Marx did not foresee that an improvement in working conditions would lead to the rise of the middle class.

Ans: D

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Comprehension Answer Location: Conflict Theory

Difficulty Level: Hard

- 25. Though structural-functional theory and conflict theory take very different approaches, they are both critiqued for _____.
- a. being difficult to test
- b. for focusing on micro-level interactions
- c. for overemphasizing the role of social cohesion and cooperation
- d. for overemphasizing social inequality

Ans: A

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Comprehension Answer Location: Conflict Theory

Difficulty Level: Hard

- 26. Which of the following sociologists focused much of his writings on the nature of bureaucracies?
- a. Karl Marx
- b. W. E. B. Du Bois
- c. Max Weber
- d. Ralf Dahrendorf

Ans: C

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Comprehension Answer Location: Multilevel Analysis

27. Which of the following theories employs multilevel analysis? a. conflict theory b. feminist theory c. structural-functional theory d. exchange theory Ans: B Learning Objective: 2.2: Describe key theoretical perspectives. Cognitive Domain: Comprehension Answer Location: Feminist Theory Difficulty Level: Hard
28. Patricia Hill Collins coined the term in reference to the confluence of identities (e.g. related to race, class, and gender) that impact people's lives and opportunities. a. cultural relativity b. intersectionality c. double consciousness d. ethnocentricity Ans: B Learning Objective: 2.2: Describe key theoretical perspectives. Cognitive Domain: Knowledge Answer Location: Multilevel Analysis Difficulty Level: Medium
29. Facts and observations that can be objectively observed and carefully measured using the five senses are known as a. evidence b. key concepts c. variables d. spurious factors Ans: A Learning Objective: 2.3: Explain the scientific approach. Cognitive Domain: Knowledge Answer Location: Ideas Underlying Science Difficulty Level: Easy
30. Science is rooted in; that is, one must take steps to ensure that one's personal opinions or values do not bias or contaminate data collection and analysis. a. subjectivity

b. morality
c. objectivity
d. philosophical inquiry
Ans: C
Learning Objective: 2.3: Explain the scientific approach.
Cognitive Domain: Knowledge
Answer Location: Ideas Underlying Science
Difficulty Level: Medium
31. An educated guess or prediction about the research being conducted is referred to
as a
a. hypothesis
b. variable
c. thesis
d. theory
Ans: A
Learning Objective: 2.3: Explain the scientific approach.
Cognitive Domain: Knowledge
Answer Location: Ideas Underlying Science
Difficulty Level: Easy
20. Compared an ideas that convin francisco and a compared and a time of an
32. Concepts or ideas that vary in frequency or occurrence across people, times, or
places are known as
a. spurious factors
b. samples
c. correlatives
d. variables
Ans: D
Learning Objective: 2.4: Outline the basic steps of the scientific research process.
Cognitive Domain: Knowledge
Answer Location: How Sociologists Study the World
Difficulty Level: Easy
33. Alexa and Eduardo want to conduct a sociological study of working mothers in
Brazil. Alexa wants to begin with some general theories about working moms in Brazil
and then make hypotheses based on those theories. Eduardo prefers to collect data
first by interviewing a representative sample of working Brazilian mothers and then
formulate a theory to explain their findings. In this example, Alexa prefers to use
while Eduardo would rather use
a. inductive research; deductive research

b. deductive research; inductive research	SAGE Publishing, 20
c. micro-level analysis; macro-level analysis	
d. macro-level analysis; micro-level analysis	
Ans: B	
Learning Objective: 2.4: Outline the basic steps of the scientific	research process.
Cognitive Domain: Application	
Answer Location: Planning a Research Study Difficulty Level: Hard	
Difficulty Level. Hard	
34. An economist is studying how changes in income affect the	frequency of eating in
restaurants. In this example, "changes in income" is the	variable, and
"frequency of eating out" is the variable.	
a. spurious; control	
b. control; spurious	
c. independent; dependent	
d. dependent; independent Ans: C	
Learning Objective: 2.4: Outline the basic steps of the scientific	research nrocess
Cognitive Domain: Application	research process.
Answer Location: How Sociologists Study the World	
Difficulty Level: Hard	
25. A apprious relationship assure between two verichles when	
35. A spurious relationship occurs between two variables when at there is no correlation	· · · · · · · · ·
b. there is a causal relationship	
c. there is no causal relationship, but they vary together, often be	ecause of a third
variable affecting both of them	
d. two or more variables are found to be unrelated	
Ans: C	
Learning Objective: 2.4: Outline the basic steps of the scientific	research process.
Cognitive Domain: Knowledge	

- 36. Which of the following is TRUE of secondary data analysis?
- a. It tends to be qualitative.

Difficulty Level: Medium

- b. It tends to be used when conducting macro- and meso-level studies.
- c. It tends to be used with micro-level research.

Answer Location: Planning a Research Study

d. It is generally considered less reliable than primary data analysis.

Ans: B

Learning Objective: 2.4: Outline the basic steps of the scientific research process.

Cognitive Domain: Comprehension

Answer Location: Designing the Research Plan

Difficulty Level: Hard

- 37. A sociologist wants to study political protests in China by traveling to Beijing and joining one of the student protest groups. This is an example of _____.
- a. observational study
- b. experimentation
- c. secondary analysis
- d. content analysis

Ans: A

Learning Objective: 2.4: Outline the basic steps of the scientific research process.

Cognitive Domain: Application

Answer Location: Designing the Research Plan

Difficulty Level: Medium

- 38. What is the purpose of a control group?
- a. to promote triangulation
- b. to enforce ethical research practices
- c. to provide a baseline with which the experimental group can be compared
- d. to eliminate spurious relationships

Ans: C

Learning Objective: 2.4: Outline the basic steps of the scientific research process.

Cognitive Domain: Knowledge

Answer Location: Designing the Research Plan

Difficulty Level: Easy

- 39. A graduate student wants to study the impact of war on soldiers. She plans to observe therapy groups for soldiers who have posttraumatic stress disorder and to conduct a survey of returning soldiers. This is an example of _____.
- a. secondary analysis
- b. random sampling
- c. content analysis
- d. triangulation

Ans: D

Learning Objective: 2.4: Outline the basic steps of the scientific research process.

Cognitive Domain: Comprehension

Answer Location: Designing the Research Plan

Difficulty Level: Medium

- 40. The purpose of human subjects review boards is to review proposed research plans and methods to be sure _____.
- a. they will not hurt the subjects
- b. they are socially relevant
- c. they will reflect well on the discipline
- d. they will benefit the researcher's career

Ans: A

Learning Objective: 2.4: Outline the basic steps of the scientific research process.

Cognitive Domain: Comprehension

Answer Location: Ethical Issues in Social Research

Difficulty Level: Medium

True/False

1. Sociology has its modern roots in the ideas of 13th-century social, political, and religious philosophers.

Ans: F

Learning Objective: 2.1: Outline the development of sociology.

Cognitive Domain: Knowledge

Answer Location: Development of Sociology

Difficulty Level: Medium

2. Henri Saint-Simon officially coined the term *sociology* in 1838.

Ans: F

Learning Objective: 2.1: Outline the development of sociology.

Cognitive Domain: Knowledge

Answer Location: Rise of Modern Sociology

Difficulty Level: Easy

3. Theories are statements of how two or more facts relate to each other.

Ans: T

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Knowledge

Answer Location: Sociology's Major Theoretical Perspectives

Difficulty Level: Easy

4. Symbolic interaction theory is a macro-level theory.

Ans: F

SAGE Publishing, 2019

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Knowledge

Answer Location: Micro- to Meso-Level Theories

Difficulty Level: Easy

5. According to the principles of symbolic interactionism, people continually create and recreate society by interacting with one another.

Ans: T

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Comprehension.

Answer Location: Symbolic Interaction Theory

Difficulty Level: Easy

6. A central premise of rational choice theory is that altruism guides human behavior.

Ans: F

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Knowledge

Answer Location: Rational Choice (Exchange) Theory

Difficulty Level: Easy

7. According to rational choice theory, we learn our place in society through interacting with each other.

Ans: F

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Knowledge

Answer Location: Rational Choice (Exchange) Theory

Difficulty Level: Medium

8. Émile Durkheim's believed that individuals conform to the rules of society because of a collective conscience.

Ans: T

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Knowledge

Answer Location: Structural-Functional Theory

Difficulty Level: Medium

9. According to Merton, latent functions are the planned outcomes of social organizations and institutions.

Ans: F

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Knowledge

Answer Location: Structural-Functional Theory

Difficulty Level: Medium

10. Structural-functional theory assumes that conflict is harmful.

Ans: T

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Comprehension

Answer Location: Structural-Functional Theory

Difficulty Level: Medium

11. According to conflict theorists, symbols have a meaning beyond their own existence.

Ans: F

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Knowledge Answer Location: Conflict Theory

Difficulty Level: Medium

12. According to Marx, the proletariat owns the means of production.

Ans: F

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Knowledge Answer Location: Conflict Theory

Difficulty Level: Easy

13. Ralf Dahrendorf's major contribution to conflict theory was his acknowledgement that conflicts over resources extend beyond the conflict that exists between the proletariat and the bourgeoisie.

Ans: T

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Comprehension Answer Location: Conflict Theory

Difficulty Level: Medium

14. From the conflict perspective, social change is desirable.

Ans: T

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Comprehension Answer Location: Conflict Theory

15. Max Weber argued that in order to understand people's behavior, you have to see the world as they do.

Ans: T

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Comprehension

Answer Location: Max Weber's Contributions

Difficulty Level: Medium

16. Feminist theory focuses exclusively on micro-level processes.

Ans: F

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Comprehension Answer Location: Feminist Theory

Difficulty Level: Easy

17. Much of feminist theory has foundations in the functionalist perspective.

Ans: F

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Comprehension Answer Location: Feminist Theory

Difficulty Level: Medium

18. Empirical knowledge is founded on information gained from intuition.

Ans: F

Learning Objective: 2.4: Outline the basic steps of the scientific research process.

Cognitive Domain: Knowledge

Answer Location: Ideas Underlying Science

Difficulty Level: Easy

19. The first step in planning a research study is to define a topic or problem that can be studied scientifically.

Ans: T

Learning Objective: 2.4: Outline the basic steps of the scientific research process.

Cognitive Domain: Knowledge

Answer Location: How Sociologists Study the Social World

Difficulty Level: Easy

20. Interviews are convenient for collecting large amounts of data.

Ans: F

Learning Objective: 2.4: Outline the basic steps of the scientific research process.

Cognitive Domain: Comprehension

Answer Location: Designing the Research Plan

Difficulty Level: Medium

21. Secondary analysis uses existing data already collected in other studies.

Ans: T

Learning Objective: 2.4: Outline the basic steps of the scientific research process.

Cognitive Domain: Knowledge

Answer Location: Designing the Research Plan

Difficulty Level: Medium

22. Content analysis is unobtrusive, meaning the research does not influence the investigated subject by having direct contact.

Ans: T

Learning Objective: 2.4: Outline the basic steps of the scientific research process.

Cognitive Domain: Knowledge

Answer Location: Designing the Research Plan

Difficulty Level: Medium

23. The process of triangulation provides a baseline with which the experimental group can be compared.

Ans: F

Learning Objective: 2.4: Outline the basic steps of the scientific research process.

Cognitive Domain: Knowledge

Answer Location: Designing the Research Plan

Difficulty Level: Medium

24. Codes of ethics answer all ethical dilemmas that arise during the research process.

Ans: F

Learning Objective: 2.4: Outline the basic steps of the scientific research process.

Cognitive Domain: Comprehension

Answer Location: Ethical Issues in Social Research

Difficulty Level: Medium

25. Examples of unethical research include studying people without their knowledge or consent, only including data that support the results you would like to see, and violating the confidentiality of your subjects by revealing their identities.

Ans: T

Learning Objective: 2.4: Outline the basic steps of the scientific research process.

Cognitive Domain: Comprehension

Answer Location: Ethical Issues in Social Research

Difficulty Level: Easy

Essay

1. Compare and contrast social statics and social dynamics. Provide one example of each.

Ans: Varies

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Comprehension

Answer Location: Rise of Modern Sociology

Difficulty Level: Medium

2. Explain the statement, "Science is rooted in objectivity." Include the ways sociologists can ensure that they are being as objective as possible.

Ans: Varies

Learning Objective: 2.4: Outline the basic steps of the scientific research process.

Cognitive Domain: Application

Answer Location: Ideas Underlying Science

Difficulty Level: Medium

3. Explain how a theory differs from a hypothesis and discuss how the two are related.

Provide an example.

Ans: Varies

Learning Objective: 2.3: Explain the scientific approach.

Cognitive Domain: Application

Answer Location: Ideas Underlying Science

Difficulty Level: Hard

4. Compare and contrast manifest and latent functions. Provide examples of each.

Ans: Varies

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Analysis

Answer Location: Structural-Functional Theory

Difficulty Level: Medium

5. According to Max Weber, what is Verstehen?

Ans: Varies

SAGE Publishing, 2019

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Comprehension

Answer Location: Max Weber's Contributions

Difficulty Level: Medium

6. How did Max Weber explain the emergence of the "spirit of capitalism"?

Ans: Varies

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Comprehension

Answer Location: Max Weber's Contributions

Difficulty Level: Medium

7. Describe one of the theoretical perspectives mentioned in the text and pose a question the perspective could address. Further, explain the critiques of that perspective. Do those critiques make the perspective useless? Why, or why not?

Ans: Varies

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Application

Answer Location: Using Different Theoretical Perspectives

Difficulty Level: Hard

8. Imagine you want to study the U.S. military from a functionalist, symbolic interactionist, and conflict perspective. What research questions will you ask about the military from each perspective, and why is that perspective appropriate for the question posed?

Ans: Varies

Learning Objective: 2.2: Describe key theoretical perspectives.

Cognitive Domain: Application

Answer Location: Using Different Theoretical Perspectives

Difficulty Level: Hard

9. Why is sociology considered a science? Provide one example of a sociological research question and how it is approached and studied scientifically.

Ans: Varies

Learning Objective: 2.4: Outline the basic steps of the scientific research process.

Cognitive Domain: Application

Answer Location: How Sociologists Study the Social World

Difficulty Level: Medium

10. Explain the statement, "Every research study should be replicable." Provide an

example of what a researcher would do to replicate a study.

Ans: Varies

Learning Objective: 2.4: Outline the basic steps of the scientific research process.

Cognitive Domain: Application

Answer Location: Designing the Research Plan and Method for the Collecting Data

Difficulty Level: Hard

11. Compare and contrast deductive reasoning and inductive reasoning. Provide examples.

Ans: Varies

Learning Objective: 2.4: Outline the basic steps of the scientific research process.

Cognitive Domain: Application

Answer Location: Planning a Research Study

Difficulty Level: Hard

12. In an experiment, what is the difference between the experimental group and the control group? Provide an example.

Ans: Varies

Learning Objective: 2.4: Outline the basic steps of the scientific research process.

Cognitive Domain: Application

Answer Location: Designing the Research Plan

Difficulty Level: Hard

13. You have been asked to conduct a study titled "The Effect of Watching Television on the Academic Performance of First-Year College Students." What theoretical perspective will you use to guide your study, and why? Explain at least two hypotheses you have about the effect of TV on grades. Describe the method you will use to conduct your study and explain why that method is most appropriate.

Ans: Varies

Learning Objective: 2.3: Explain the scientific process

Cognitive Domain: Application

Answer Location: Designing the Research Plan

Difficulty Level: Hard

14. In the late 1960s, Laud Humphries conducted a study called "The Tearoom Trade." Humphries posed as a "watch queen" (a man who guards the doors of restrooms in public parks so that men can have sex with other men inside). Humphries wrote down the license plate numbers of the men who had sex with other men, then looked up their addresses, disguised his appearance, and went to their homes to interview them a year later. Humphries discovered that, contrary to popular opinion, many of the men were

Instructor Resource Ballantine, *Our Social World: Condensed, 6e* SAGE Publishing, 2019

actually married to women and living otherwise quiet, middle-class lives. Today, this study is considered unethical. In light of what you learned about research ethics in Chapter 2 of the text, what ethical principles does this study violate? Do you personally feel the benefits of the study (it destroyed many stereotypes) outweighed the risks? Ans: Varies

Learning Objective: 2.4: Outline the basic steps of the scientific research process.

Cognitive Domain: Application

Answer Location: Ethical Issues in Social Research

Difficulty Level: Hard

15. Imagine you work as a public sociologist. Explain what your job responsibilities are both inside academia (i.e. a professor) and outside academia (i.e. working in an organization).

Ans: Varies

Learning Objective: 2.4: Outline the basic steps of the scientific research process.

Cognitive Domain: Application

Answer Location: Putting Sociology to Work: Public Sociology
