- d. .03 property offenses per 100,000 inhabitants

Type: true-false

Title: Chapter 2 - Question 26

26) One of the problems in attempting to measure crime is that all offenses are reported.

- a. True
- *b. False

Type: true-false

Title: Chapter 2 - Question 27

27) The categories the UCR uses to conceptualize types of crime reflect the actual criminal statutes in each jurisdiction.

- a. True
- *b. False

Type: true-false

Title: Chapter 2 - Question 28

28) Although the UCR provides a reasonably good picture of crime, it does not tell the whole crime story.

- *a. True
- b. False

Type: true-false

Title: Chapter 2 - Question 29

29) The UCR is an improvement over the NIBRS because it compensates for the hierarchy rule.

- a. True
- *b. False

Type: true-false

Title: Chapter 2 - Question 30

30) The UCR provides better measures of what the police do than of the amount of crime being committed.

- *a. True
- b. False

Type: true-false

Title: Chapter 2 - Question 31

31) Someday, criminologists will discover the dark figure of crime.

- *a. True
- b. False

Type: true-false

Title: Chapter 2 - Question 32

32) There are several excellent and extensive means of measuring crime other than the Uniform Crime Reports.

- a. True
- *b. False

Type: true-false

Title: Chapter 2 - Question 33

33) There are three sources of error in the Uniform Crime Reports.

- a. True
- *b. False

Type: true-false

Title: Chapter 2 - Question 34

34) The NIBRS gathers data on only the major criminal act committed within a set of criminal acts.

- a. True
- *b. False

Type: true-false

Title: Chapter 2 - Question 35

35) One method for trying to understand the level of unreported crime is victimization surveys.

- *a. True
- b. False

Type: true-false

Title: Chapter 2 - Question 36

36) Self-report studies are not filtered through criminal justice system agencies.

- *a. True
- b. False

Type: true-false

Title: Chapter 2 - Question 37
