

Framing Labor Subcontractor

We proposed to provide the labor and equipment to complete the framing for the Real Estate Office building in accordance with the plans and specifications for the sum of \$6,484. Included in the bid is the installation of the sills, studs, plates, headers, rafters, trusses, floor sheathing, roof sheathing, and framing hardware (nails, shots, pins, expansion bolts, machine bolts, lag screws, post to beam connections, joist and beam hinges, and straps). The nails are included in this contract. All other materials (lumber, framing hardware, and trusses) are excluded from this bid. Also excluded is the installation of doors, windows, and toilet and bath hardware. The subcontractor will supply a forklift and a crane for the work in this bid. Use of the forklift and crane by other trades is excluded. The contractor is to supply temporary power for the work under this bid.

As an alternate, we propose to install the vinyl windows for \$30 each.
