

Add student name in left section of header, sheet name in center, and file name in right section of header

Input Area	
Sale Price	\$ 300,000.00
Realtor Commission Rate	6%
Closing Costs Rate	7%
Annual Property Taxes	\$ 2,000.00
Months to Prorate Taxes	6
Months in a Year	12
Est Existing Mortgage Payoff	\$ 100,000.00

Exploring Series:
Commission is misspelled.

Add comments explaining errors to cells containing errors

Make corrections to cells containing errors, including formatting

Apply Landscape orientation, 115% scaling, 1.5" top margin, and center horizontally

Output Area		
Sale Price		\$ 300,000.00
Commission	\$ 18,000.00	
Closing Costs	21,000.00	
Title Insurance Policy	950.00	
Prorated Property Taxes	1,000.00	
Est Existing Mortgage Payoff	<u>100,000.00</u>	
Total Est Deductions		140,950.00
Estimated Net Proceeds		<u>\$ 159,050.00</u>

Exploring Series:
The original cell fill color did not match, and the merge went over the G column.

Exploring Series:
A value was entered here. It should be a formula that refers to the original sale price in the input area.

Exploring Series:
The original formula was =B2+B3. It should multiply instead.

Exploring Series:
The original formula was =B2*B3. It should be =B2*B4 to multiply by the closing cost rate, not the commission rate.

Exploring Series:
The original formula was =F2+F8. The corrected formula should subtract instead: =F2-F8.

Exploring Series:
This cell is not formatted correctly. It was missing the Comma Style format, and the line was a border line, not an underline.

Exploring Series:
The original formula was =B5*B6, which results in a value 6X the original amount. The correct formula is =B5*B6/B7.
