Chapter 2

Accounting for Business Transactions

QUESTIONS

- a. Common asset accounts: cash, accounts receivable, notes receivable, prepaid expenses (rent, insurance, etc.), office supplies, store supplies, equipment, building, and land.
 - b. Common liability accounts: accounts payable, notes payable, and unearned revenue, wages payable, and taxes payable.
 - c. Common equity accounts: common stock and dividends.
- 2. A note payable is formal promise, usually denoted by signing a promissory note to pay a future amount. A note payable can be short-term or long-term, depending on when it is due. An account payable also references an amount owed to an entity. An account payable can be oral or implied, and often arises from the purchase of inventory, supplies, or services. An account payable is usually short-term.
- 3. There are several steps in processing transactions: (1) Identify and analyze the transaction or event, including the source document(s), (2) apply double-entry accounting, (3) record the transaction or event in a journal, and (4) post the journal entry to the ledger. These steps would be followed by preparation of a trial balance and then with the reporting of financial statements.
- 4. A general journal can be used to record any business transaction or event.
- 5. Debited accounts are commonly recorded first. The credited accounts are commonly indented.
- 6. A transaction is first recorded in a journal to create a complete record of the transaction in one place. (The journal is often referred to as the book of original entry.) This process reduces the likelihood of errors in ledger accounts.
- 7. Expense accounts have debit balances because they are decreases to equity (and equity has a credit balance).
- 8. The recordkeeper prepares a trial balance to summarize the contents of the ledger and to verify the equality of total debits and total credits. The trial balance also serves as a helpful internal document for preparing financial statements and other reports.
- 9. The error should be corrected with a separate (subsequent) correcting entry. The entry's explanation should describe why the correction is necessary.

- 10. The four financial statements are: income statement, balance sheet, statement of retained earnings, and statement of cash flows.
- 11. The balance sheet provides information that helps users understand a company's financial position at a point in time. Accordingly, it is often called the statement of financial position. The balance sheet lists the types and dollar amounts of assets, liabilities, and equity of the business.
- 12. The income statement lists the types and amounts of revenues and expenses, and reports whether the business earned a net income (also called profit or earnings) or a net loss.
- 13. An income statement user must know what time period is covered to judge whether the company's performance is satisfactory. For example, a statement user would not be able to assess whether the amounts of revenue and net income are satisfactory without knowing whether they were earned over a week, a month, a quarter, or a year.
- 14. (a) Assets are probable future economic benefits obtained or controlled by a specific entity as a result of past transactions or events. (b) Liabilities are probable future sacrifices of economic benefits arising from present obligations of a particular entity to transfer assets or provide services to other entities in the future as a result of past transactions or events. (c) Equity is the residual interest in the assets of an entity that remains after deducting its liabilities. (d) Net assets refer to equity.
- 15. The balance sheet is sometimes referred to as the statement of financial position.
- 16. Debit balance accounts on the Apple balance sheet include: Cash and cash equivalents; Short-term marketable securities; Accounts receivable; Inventories; Deferred tax assets; Vendor non-trade receivables; Other current assets; Long-term marketable securities; Property, plant and equipment, net; Goodwill; Acquired intangible assets, net; Other assets.
 - Credit balance accounts on the Apple balance sheet include: Accounts Payable; Accrued expenses; Deferred revenue; Deferred revenue–non-current; Long-term debt; Other non-current liabilities; Common stock; Retained earnings; Accumulated other comprehensive income.
- 17. The asset accounts with *receivable* in its account title are: Accounts receivable, net and Receivable under reverse repurchase agreements. The liabilities with *payable* in the account title are: Accounts payable, Securities lending payable, and Income taxes payable, net.
- 18. Samsung's balance sheet lists the following current liabilities: Trade and other payables; Short-term borrowings; Advances received; Withholdings; Accrued expenses; Income tax payable; Current portion of long-term borrowings and debentures; Provisions; Other current liabilities.
 - Samsung's balance sheet lists the following noncurrent liabilities: Long-term trade and other payables; Debentures; Long-term borrowings; Net defined benefit liabilities; Deferred income tax liabilities; Provisions; Other non-current liabilities.

QUICK STUDIES

Quick Study 2-1 (10 minutes)

The likely source documents include:

- a. Sales ticket
- d. Telephone bill
- e. Invoice from supplier
- h. Bank statement

Quick Study 2-2 (5 minutes)

- a. A Asset
- b. A Asset
- c. A Asset
- d. A Asset
- e. A Asset
- f. EQ Equity
- g. L Liability
- h. L Liability
- i. EQ Equity

Quick Study 2-3 (5 minutes)

a.	E	Expense	655
b.	R	Revenue	406
C.	Α	Asset	110
d.	Α	Asset	191
e.	L	Liability	208
f.	Α	Asset	161
g.	L	Liability	245
h.	EQ	Equity	307

C.	Credit	g.	Credit	k.	Debit
d.	Credit	ĥ.	Debit	l.	Credit

Quick Study 2-6 (15 minutes)

a.

1) Analyze:

Assets	=	Liabilities	+	Equity
Cash Equipment				Common Stock
7,000 + 3,000	=	0	+	10,000

2) Record:

Date	Account Titles and Explanation	PR	Debit	Credit
May 15	Cash	101	7,000	
	Equipment	167	3,000	
	Common Stock	307		10,000
	Owner invests cash & equipment for stock.			

3) Post

Ca	ısh	101	Equipment	167		
7,000			•	107	Common	Stock 307
,			3,000			10,000

Quick Study 2-6 (Continued)

b.

1) Analyze:

Assets	=	Liabilities	+	Equity
Office Supplies		Accounts Payable		
500	=	500	+	0

2) Record:

Date	Account Titles and Explanation		Debit	Credit
May 21	Office Supplies		500	
	Accounts Payable	201		500
	Purchased office supplies on credit.			

3) Post

Office Supp	olies	124
500		

Accounts F	Payable	201
		500

C.

1) Analyze:

Assets	=	Liabilities	+	Equity
Cash				Landscaping Revenue
4,000	=	0	+	4,000

2) Record:

Date	Account Titles and Explanation		Debit	Credit
May 25	Cash	101	4,000	
	Landscaping Revenue	403		4,000
	Received cash for landscaping services.			

3) Post			l l	400
	Cas	sh 101	Landscaping Revenue	403
		101		4,000
	4,000			4,000

Quick Study 2-6 (Continued)

d.

1) Analyze:

Assets	=	Liabilities	+	Equity
Cash		Unearned Landscaping		
		Revenue		
1,000	=	1,000	+	0

2) Record:

Date	Account Titles and Explanation	PR	Debit	Credit
May 30	Cash	101	1,000	
	Unearned Landscaping Revenue	236		1,000
	Received cash in advance for landscaping			
	services.			

3) Post

Cash	101		
1,000		Unearned Landscaping Revenue	236
1,000			1,000

Quick Study 2-7 (10 minutes)

a.	Debit	e.	Debit	i.	Credit
b.	Credit	f.	Credit	j.	Debit
C.	Credit	g.	Credit	_	
d.	Debit	ĥ.	Credit		

Quick Study 2-8 (10 minutes)

The correct answer is a.

Explanation: If a \$2,250 debit to Utilities Expense is incorrectly posted as a credit, the effect is to understate the Utilities Expense debit balance by \$4,500. This causes the Debit column total on the trial balance to be \$4,500 less than the Credit column total.

Quick Study 2-9 (10 minutes)

a. I e. B i. E

b. B f. B j. B

c. B g. B k. I

d. I h. I l. I

Quick Study 2-10 (10 minutes)

- a. Accounting under IFRS follows the same debit and credit system as under US GAAP.
- b. The same four basic financial statements are prepared under IFRS and US GAAP: income statement, balance sheet, statement of changes in equity, and statement of cash flows. Although some variations from these titles exist within both systems, the four basic statements are present.
- c. Accounting reports under both IFRS and US GAAP are likely different depending on the extent of accounting controls and enforcement. For example, the absence of controls and enforcement increase the possibility of fraudulent transactions and misleading financial statements. Without controls and enforcement, all accounting systems run the risk of abuse and manipulation.

EXERCISES

Exercise 2-1 (10 minutes)

- 4 a. Prepare and analyze the trial balance.
- 1 b. Analyze each transaction from source documents.
- 2 c. Record relevant transactions in a journal.
- <u>3</u> d. Post journal information to ledger accounts.

Exercise 2-2 (10 minutes)

a. 5 "Three"

d. 1 "Asset"

b. 2 "Equity"

e. 3 "Account"

c. 4 "Liability"

Exercise 2-3 (5 minutes)

a. 1 "Chart"

b. 2 "General Ledger"

Exercise 2-4 (15 minutes)

		Type of	Normal	Increase
	Account	Account	Balance	(Dr. or Cr.)
a.	Land	asset	debit	debit
b.	Cash	asset	debit	debit
C.	Legal Expense	expense	debit	debit
d.	Prepaid Insurance	asset	debit	debit
e.	Accounts Receivable	asset	debit	debit
f.	Dividends	equity	debit	debit
g.	License Fee Revenue	revenue	credit	credit
h.	Unearned Revenue	liability	credit	credit
i.	Fees Earned	revenue	credit	credit
j.	Equipment	asset	debit	debit
k.	Notes Payable	liability	credit	credit
I.	Common Stock	equity	credit	credit

Exercise 2-5 (15 minutes)

Of the items listed, the following effects should be included:

- a. \$28,000 increase in a liability account.
- b. \$10,000 increase in the Cash account.
- e. \$62,000 increase in a revenue account.

<u>Explanation</u>: This transaction created \$62,000 in revenue, which is the value of the service provided. Payment is received in the form of a \$10,000 increase in cash, an \$80,000 increase in computer equipment, and a \$28,000 increase in its liabilities. The net value received by the company is \$62,000.

Exercise 2-6 (15 minutes)

a.	Beginning accounts payable (credit) Purchases on account in October (credits) Payments on accounts in October (debits) Ending accounts payable (credit)		281,000 . <u>(</u>)
	Payments on accounts in October (debits)		<u>\$300,500</u>
b.	Beginning accounts receivable (debit) Sales on account in October (debits) Collections on account in October (credits) Ending accounts receivable (debit)		? . <u>(102,890</u>)
	Sales on account in October (debits)		<u>\$89,390</u>
c.	Beginning cash balance (debit)		102,500 . <u>(103,150</u>)
	Beginning cash balance (debit)		<u>\$19,250</u>

(g)	1,225				
Balance	1.225				

Exercise 2-10 (15 minutes)

SPADE COMPANY Trial Balance						
May 31, 201	5					
	Debit	Credit				
Cash	\$ 94,850					
Accounts receivable	1,575					
Office supplies	1,250					
Office equipment	10,050					
Accounts payable		\$ 0				
Common stock		100,750				
Dividends	10,000.					
Fees earned		18,200				
Rent expense	1,225					
Totals	<u>\$118,950</u>	<u>\$118,950</u>				

Exercise 2-11 (20 minutes)

Transactions that created expenses:

b.	Salaries Expense	1,233	
	Cash		1,233
	Paid salary of receptionist.		·
d.	Utilities Expense	870	
	Cash		870
	Paid utilities for the office.		

[Note: Expenses are outflows or using up of assets (or the creation of liabilities) that occur in the process of providing goods or services to customers.]

Transactions a, c, and e are not expenses for the following reasons:

- a. This transaction decreased assets in settlement of a previously existing liability, and equity did not change. Cash payment does not mean the same as using up of assets (expense is recorded when the supplies are used).
- c. This transaction involves the purchase of an asset. The form of the company's assets changed, but total assets did not change, and the equity did not decrease.
- e. This transaction is a distribution of cash to the owner. Even though equity decreased, the decrease did not occur in the process of providing goods or services to customers.

Exercise 2-12 (20 minutes)

Transactions that created revenues:

b.	Accounts Receivable	2,300	
	Services Revenue	·	2,300
	Provided services on credit.		
C.	Cash	875	
	Services Revenue		875
	Provided services for cash.		

[Note: Revenues are inflows of assets (or decreases in liabilities) received in exchange for goods or services provided to customers.]

Transactions that did not create revenues along with the reasons are:

- a. This transaction brought in cash, but this is an owner investment.
- d. This transaction brought in cash, but it created a liability because the services have not yet been provided to the client.
- e. This transaction changed the form of the asset from accounts receivable to cash. Total assets were not increased (revenue was recognized when the receivable was originally recorded).
- f. This transaction brought in cash and increased assets, but it also increased a liability by the same amount (no goods or services were provided to generate revenue).

Exercise 2-13 (25 minutes)

- a. Belle created a new business and invested \$6,000 cash, \$7,600 of equipment, and \$12,000 in automobiles in exchange for stock.
- b. Paid \$4,800 cash in advance for insurance coverage.
- c. Paid \$900 cash for office supplies.
- d. Purchased \$300 of office supplies and \$9,700 of equipment on credit.
- e. Received \$4,500 cash for delivery services provided.
- f. Paid \$1,600 cash towards accounts payable.
- g. Paid \$820 cash for gas and oil expenses.

Exercise 2-14 (30 minutes)

a.	Cash	6,000	
	Equipment	7,600	
	Automobiles	12,000	
	Common Stock	•	25,600
	Owner investment in company for stock.		,
b.	Prepaid Insurance	4,800	
	Cash		4,800
	Purchased insurance coverage.		·
C.	Office Supplies	900	
	Cash		900
	Purchased supplies with cash.		
d.	Office Supplies	300	
	Equipment	9,700	
	Accounts Payable	,	10,000
	Purchased supplies and equipment on credit.		,,,,,,,
e.	Cash	4,500	
•	Delivery Services Revenue	1,000	4,500
	Received cash from customer for services provided.		1,000
f.	Accounts Payable	1,600	
	Cash	,	1,600
	Made payment on payables.		,
g.	Gas and Oil Expense	820	
•	Cash		820
	Paid for gas and oil.		

Exercise 2-15 (20 minutes)

Calculation	of change	in equi	ty for	part	a ·	<u>through</u>	<u>part</u>	<u>d</u>
	_		_			_		

	Assets	-	Liabilities	=	Equity
Beginning of the year	\$ 60,000	-	\$20,000	=	\$40,000
End of the year	105,000	-	36,000	=	69,000
Net increase in equity					\$29,000

Net Income = \$29,000

Since there were no additional investments or dividends, the net income for the year equals the net increase in equity.

Net Income = \$44,000

The dividends were added back because they reduced equity without reducing net income.

<u>Net Loss = \$26,000</u>

The investment was deducted because it increased equity without creating net income.

Net Income = \$9,000

The dividends were added back because they reduced equity without reducing net income and the investments were deducted because they increased equity without creating net income.

Exercise 2-16 (15 minutes)

HELP TODAY Income Statement					
For Month Ended Augus	st 31				
Revenues					
Consulting fees earned		\$ 27,000			
Expenses					
Rent expense	\$ 9,550				
Salaries expense	5,600				
Telephone expense	860				
Miscellaneous expenses	<u>520</u>				
Total expenses		<u> 16,530</u>			
Net income		<u>\$ 10,470</u>			

Exercise 2-17 (15 minutes)

HELP TODAY		
Statement of Retained Earnings		
For Month Ended August 31		
Retained earnings, July 31	\$	0
Add: Net income (from Exercise 2-16)	10	<u>,470</u>
	10	,470
Less: Dividends	6	<u> 6,000</u>
Retained earnings, August 31	\$ 4	<u>1,470</u>

Exercise 2-18 (15 minutes)

HELP TODAY Balance Sheet August 31

Assets		Liabilities	
Cash \$	25,360	Accounts payable	\$ 10,500
Accounts receivable	22,360		
Office supplies	5,250	Equity	
Office equipment	20,000	Common stock	102,000
Land	44,000	Retained earnings [*]	4,470
Total assets <u>\$1</u>	<u> 16,970</u>	Total liabilities & equity	\$116,970

^{*}Amount from Exercise 2-17.

Exercise 2-19 (15 minutes)

Answers	(a) \$(28,000)		(b) \$42,000		(c) \$73,000		d) ,000)
Computations:							
Equity, Dec. 31, 2014	\$ 0	\$	0	\$	0	\$	0
Owner's investments	110,000	42,	000	87,	000	210	,000
Dividends	(28,000)	(47,	000)	(10,000)		(55,000)	
Net income (loss)	22,000	90,	<u>000</u>	(4,	<u>000</u>)	(45	,000)
Equity, Dec. 31, 2015	<u>\$104,000</u>	<u>\$85,</u>	000	<u>\$73</u> ,	000	<u>\$110</u>	,000

Exercise 2-20 (20 minutes)

		(1)	(2)	(3)	(4)
	Description	Difference between Debit and Credit Columns	Column with the Larger Total	Identify account(s) incorrectly stated	Amount that account(s) is overstated or understated
a.	\$3,600 debit to Rent Expense is posted as a \$1,340 debit.	\$2,260	Credit	Rent Expense	Rent Expense is understated by \$2,260
b.	\$6,500 credit to Cash is posted twice as two credits to Cash.	\$6,500	Credit	Cash	Cash is understated by \$6,500
C.	\$10,900 debit to the Dividends account is debited to Common	\$ 0	_	Common Stock	Common Stock is understated by \$10,900
	Stock			Dividends	Dividends is understated by \$10,900
d.	\$2,050 debit to Prepaid Insurance is posted as a debit to	\$0		Prepaid Insurance	Prepaid Insurance is understated by \$2,050
	Insurance Expense.	Ψ		Insurance Expense	Insurance Expense is overstated by \$2,050
e.	\$38,000 debit to Machinery is posted			Machinery	Machinery is understated by \$38,000
	as a debit to Accounts Payable.	\$0	_	Accounts Payable	Accounts Payable is understated by \$38,000
f.	\$5,850 credit to Services Revenue is posted as a \$585 credit.	\$5,265	Debit	Services Revenue	Services Revenue is understated by \$5,265
g.	\$1,390 debit to Store Supplies is not posted.	\$1,390	Credit	Store Supplies	Store Supplies is understated by \$1,390

Exercise 2-21 (15 minutes)

- a. The debit column is correctly stated because the erroneous debit (to Accounts Payable) is deducted from an account with a (larger assumed) credit balance.
- b. The credit column is understated by \$37,900 because Accounts Payable was debited it should have been credited.
- c. The Automobiles account balance is correctly stated.
- d. The Accounts Payable account balance is understated by \$37,900. It should have been increased (credited) by \$18,950 but the posting error decreased (debited) it by \$18,950.
- e. The credit column is \$37,900 less than the debit column, or \$162,100 in total (\$200,000 \$37,900).

Exercise 2-22 (10 minutes)

HEINEKEN N.V. Balance Sheet (in Euro millions) December 31, 2013					
Assets	Equity and liabilities				
Noncurrent assets € 27,842	Total equity	€ 12,356			
Current assets 5,495	Noncurrent liabilities	12,978			
	Current liabilities	8,003			
Total assets <u>€ 33,337</u>	Total equity and liabilities	€ 33,337			

Exercise 2-23 (15 minutes)

a.	Co.	Liabilities /	Assets	Debt = Ratio	Net Income	Average Assets	=	ROA
	1	\$11,765	\$ 90,500	0.13	\$20,000	\$100,000		0.200
	2	46,720	64,000	0.73	3,800	40,000		0.095
	3	26,650	32,500	0.82	650	50,000		0.013
	4	55,860	147,000	0.38	21,000	200,000		0.105
	5	31,280	92,000	0.34	7,520	40,000		0.188
	6	52,250	104,500	0.50	12,000	80,000		0.150

- b. Company 3 relies most heavily on creditor (non-owner) financing with 82% of its assets financed by liabilities.
- c. Company 1 relies least on creditor (non-owner) financing at only 13%. This implies that 87% of the assets are financed by equity (owners).
- d. The companies with the highest debt ratios indicate the greatest risk. The two companies with the highest debt ratios are 2 and 3.
- e. Company 1 yields the highest return on assets at 20%; followed by Company 5 at 18.8%.
- f. As an investor, one prefers high returns at low risk. Company 1 is the preferred investment since it yields the lowest risk (debt ratio is 13%) and highest return on assets (20%).

PROBLEM SET A

Problem 2-1A (90 minutes) Part 1

Part 1

Part 2

Computation of 2015 net income:

Equity, December 31, 2014 Equity, December 31, 2015 Increase in equity during 2015	(304,490)
Owner investmentAdd net income	35,000
Deduct dividends (\$3,000 x 12) Increase in equity during 2015	
Therefore, net income must equal (\$22,290+\$36,000-\$35,000):	= \$ 23.290

Part 3

Debt Ratio = $$73,500 / $377,990 = \underline{19.4\%}$

Part 2

Calculation of 2015 net income:

Total assets......\$412,000

Equity, December 31, 2014	\$127,500
Equity, December 31, 2015	(150,000)
Increase in equity during 2015	\$ 22,500
Owner investment during 2015	\$ 15,000
2015 Net income	?
Dividends during 2015 (\$250 x 12)	(3,000)
Increase in equity during 2015	<u>\$ 22,500</u>
Therefore, 2015 income must equal (\$22,500+ \$3,000- \$15,000) =	\$ 10,500

Part 3

Debt ratio = \$262,000 / \$412,000 = <u>63.6%</u>

Total liabilities & equity......\$412,000...

Reporting in Action — BTN 2-1

1. Apple reports (\$ millions):

\$83,451 in liabilities at September 28, 2013. \$57,854 in liabilities at September 29, 2012.

2. Apple reports (\$ millions):

\$207,000 in assets at September 28, 2013. \$176,064 in assets at September 29, 2012.

3. (\$ millions):

As of September 28, 2013 Debt Ratio = \$83,451/\$207,000 = 40.3% As of September 29, 2012 Debt Ratio = \$57,854/\$176,064 = 32.9%

- 4. Apple employed more financial leverage as of September 28, 2013, when 40.3% of its assets were financed by debt, relative to September 29, 2012, when 32.9% of its assets were financed by debt. Consequently, its financing structure was more risky in its fiscal 2013 in comparison to its fiscal 2012.
- 5. Solution depends on the financial statements accessed.

Comparative Analysis — BTN 2-2

1. Apple (\$ millions)

Current year debt ratio: \$83,451/\$207,000 = 40.3%

Prior year debt ratio: \$57,854/\$176,064 = 32.9%

2. Google (\$ millions)

Current year debt ratio: \$23,611/\$110,920 = 21.3%

Prior year debt ratio: \$22,083/\$93,798 = 23.5%

3. Apple has the higher degree of financial leverage. Apple's debt ratio is markedly higher for the current year than that of Google (40.3% vs. 21.3%). This indicates that Apple carries more debt financing than Google. This also implies that Apple is attempting to use nonowner financing to make more money for its owners. This is fine provided Apple's return does not decline below that of what it pays nonowners for use of that money— this is the main source of financing risk.

Ethics Challenge — BTN 2-3

This case involves a conflict between the need for efficiency and the need for control. While it makes sense to take and process lunch orders quickly, this efficiency is being accomplished by a shortcut that greatly weakens control over cash receipts. Cash could be received and lost or stolen because there would be no initial record of how much was received.

The assistant manager's explanation about the head manager not arriving until 3 o'clock suggests that the head manager doesn't know about the proposed shortcut. Thus, the new employee is faced with the dilemma of deciding whether to accept the assistant manager's instructions, suggest to the assistant manager that the shortcut seems wrong, or to ask the head manager to confirm the instructions. Each of these alternatives involves personal risk.

It is possible that the assistant manager does not understand the potential for fraud and abuse if this shortcut is used. If the relationship between you and the assistant manager is such that you feel you can do so, you should explain your understanding of how the shortcut could lead to the problems of inaccurate records for tax purposes, gathering inaccurate marketing information, and abuse by other employees who might not be as honest as you and the assistant manager.

If the assistant manager insists, you may want to work as instructed to get an idea of whether the shortcut is being abused by the assistant manager and perhaps to find out discreetly whether the head manager knows about it. (Although, this behavior does involve personal risk of perceived collusion with the assistant manager.) If you conclude that the assistant manager is committing fraud, you should report the situation to the head manager as quickly as possible.

Communicating in Practice — BTN 2-4

N	ΛEI	М	$\boldsymbol{\cap}$	D	Λ	NI			11	١л
ı١		IVI	u	К	м	IN	u	L	JI	VI

To: Lila Corentine

From: _____

Subject: Financial statements explanation

Date: _____

The four major financial statements and their purposes are:

- Income statement describes a company's revenues and expenses along with the resulting net income or loss over a period of time. It helps explain how equity changes during a period due to earnings activities.
- Statement of retained earnings explains changes in retained earnings due to net income (or net loss) and any dividends over a period of time.
- Statement of cash flows identifies cash inflows (receipts) and outflows (payments) over a period of time. It also explains how the cash balance on the balance sheet changed from the beginning to the end of a period.
- Balance sheet describes a company's financial position (assets, liabilities, and equity) at a point in time.

These financial statements are linked to each other across time. Specifically, a balance sheet reports an organization's financial position at a *point in time*. The income statement, statement of retained earnings, and statement of cash flows report on performance over a *period of time*. These three statements link balance sheets from the beginning to the end of a reporting period. That is, they explain how the financial position of an organization changes from one point to another.

Taking It to the Net — BTN 2-5

- 2. The three years net cash *provided* by operations follows (\$ millions): 2013 = \$5,475 2012 = \$4,180 2011 = \$3,903
- 3. In 2013, Amazon had net income of \$274 million and operating cash flows of \$5,475 million; and, in that same year, total net cash increased by only \$574 million (see its statement of cash flows).

The reason its cash balance only increased by \$574 million in 2013 was because of cash outflows of \$4,276 million for its investing activities and \$539 million for its financing activities (and further reduced by \$86 million related to foreign currency effects). Those uses of cash absorbed much of the cash generated by its operating activities. A large part of those cash outflows was tied to its investments in securities and its other purchases and acquisitions.

Teamwork in Action — BTN 2-6

<Instructor note: There is no specific solution to this activity.>

The following <u>sample solution</u> gives a summary outline of what a minimum report needs to include. Assume a team member selects assets:

Category: Assets

- a. Increases (decreases) in assets are debits (credits) to asset accounts. Debit means left side, credit means right side. The normal side of an account refers to the side where increases are recorded. For assets, this is the debit, or left, side.
- b. Owner investment of \$10,000 cash in business in exchange for stock.
- c. Assets = Liabilities + Common Stock Dividends + Revenues Expenses + \$10,000 = \$0 + \$10,000 \$0 + \$0 \$0

 Owner investments have no effect on the income statement, but they do increase the cash flows from financing by \$10,000 on the statement of cash flows (this increases its net cash flow).
- d. Paid rent expense with \$2,000 cash.
- e. Assets = Liabilities + Common Stock Dividends + Revenues Expenses \$2,000 = \$0 + \$0 \$2,000

 An expense paid in cash will decrease net income on the income statement and decrease operating cash flows on the statement of cash flows.

Entrepreneurial Decision — BTN 2-7

There are several issues that this entrepreneurial owner should consider. Those considerations include the following three issues (among others):

- If she chooses to contribute her own funds for the expansion, she will be risking her own money, but she will not have the expense of interest payments, nor will she have the risk of the inability to repay a loan.
- If she chooses to borrow, she will have interest and loan payments to make, and she will have more risk (as reflected in her company's debt ratio).
- If she can pay the interest and loan payments, it can be to her advantage to borrow, as long as her return on assets is high enough (that is, higher than the rate of interest on the borrowings).

Entrepreneurial Decision — BTN 2-8

1.

MARTIN MUSIC SERVICES Balance Sheet December 31, 2015

2000111301 011, 2010						
Assets		Liabilities				
Cash	\$ 3,600	Accounts payable \$ 2,200				
Accounts receivable	9,600	Unearned lesson fees <u>15,600</u>				
Prepaid insurance	1,500	Total liabilities 17,800				
Prepaid rent	9,400					
Store supplies	6,600	Equity				
Equipment	50,000	Total equity <u>62,900</u>				
Total assets	\$80,700	Total liabilities and equity \$80,700				

2. Debt ratio = Total liabilities / Total assets = \$17,800 / \$80,700 = 22.1%

Return on assets = Net income/Average assets = \$40,000/\$80,700*= 49.6%

*Ending balance is used per instructions.

3. The prospects of a bank loan are likely to be good. (i) The debt ratio indicates that 78% of the company's funding is from equity. Also, there are no debt obligations requiring periodic payments. This implies low risk. (ii) The level of return on assets is very high. This implies good return.

Overall, given the information and the assumption that current performance will continue into the future, the prospects of a bank loan are good.

Note: The loan does carry some risk—fueling this risk are (i) poor recordkeeping, (ii) lack of information on growth potential, and (iii) a much higher pro forma debt ratio—that is, if the loan is granted, the debt ratio will jump to 43%, computed as:

(\$17,800 + \$30,000) / (\$80,700 + \$30,000).

Hitting the Road — BTN 2-9

Findings will vary. It is advisable that the instructor obtain a few classified sections from newspapers that were published over the period of the assignment. If student reports lack responses for question 2, it is informative and motivating to bring these (accounting-related job opportunities) sections to class when discussing or returning student reports as many students are not accounting majors.

Global Decision — BTN 2-10

- 1. An analysis of return on assets suggests that Apple (19.3%) yields the greatest return on assets, followed by Samsung (15.4%) and then Google (12.6%), which yields the lowest return.
- 2. An analysis of the debt ratio suggests that Apple (at 40.3%) presents the greatest risk, followed by Samsung (29.9%) and then Google (21.3%) with the least risk. That is, Apple carries the most debt and debt must be repaid with interest and principal. The lower debt levels of Google and Samsung result in less risk in that their contractually required payments are less as a percent of their respective asset bases.
- 3. In this case, there is no clear answer based on these two ratios alone. Apple has a relatively higher return on assets but also the highest debt ratio. Google has the lowest return (slightly lower return on assets compared to Samsung and substantially lower than that for Apple), but it has the lowest debt ratio. Samsung is in the middle for its debt ratio and its return on assets. Overall, based on return on assets, Apple would warrant additional consideration for expanded investment; however, based on the debt ratio, Google would warrant additional consideration. Therefore, in this analysis of these three companies, we get a mixed inference from these two ratios (and further analysis is warranted).
