

Chapter 02 Accountants as Business Analysts

Student: _____

1. Accountants now face a challenge of helping businesses optimize processes.

True False
2. To be valuable business partners, accountants must understand how the business delivers value to its employees.

True False
3. A business process constrains business rules.

True False
4. A business model is typically a graphical depiction of the essential business process information.

True False
5. Documentation can be thought of as a tool for information transmission and communication.

True False
6. Documentation helps with training but won't help with regulatory compliance issues.

True False
7. Models should be simpler than the processes and systems they depict.

True False
8. Because business models are simpler than the processes they depict, they are limited in their ability to integrate local views of a process.

True False
9. Activity models are a relatively new process modeling tool.

True False

10. In Business Process Modeling Notation (BPMN), activities are named with a short verb phrase placed within the rectangle.
- True False
11. Business Process Modeling Notation (BPMN) activity models show the sequence of flow from right to left and top to bottom.
- True False
12. Business Process Modeling Notation (BPMN) activity diagrams depict events as circles.
- True False
13. Business Process Modeling Notation (BPMN) activity diagrams depict activities as circles.
- True False
14. An activity can depict a single action or some logical combination of actions depending on the required level of detail to achieve the objectives of the business process analysis.
- True False
15. Gateways show decisions and possible branching as a result of the decision.
- True False
16. Swimlanes identify participants, e.g., organizations, in a process.
- True False
17. Business Process Modeling Notation (BPMN) activity diagrams are conceptually similar to process maps.
- True False
18. Business Process Modeling Notation (BPMN) start events are shown using ovals and flowchart start events are shown using circles.
- True False

19. Opportunity flowcharts identify opportunities for process improvement by separating value-added from non-value-added activities.
- True False
20. Data Flow Diagrams start with a circle indicating the start event.
- True False
21. Which of the following is not a Stewardship and Reporting role of the Accounting/Finance Function in Business?
- A.
B.
C.
D.
22. Which of the following is not a Business Management Support role of the Accounting/Finance Function in Business?
- A.
B.
C.
D.
23. Which of the following is not an Accounting/Finance Operations role of the Accounting/Finance Function in Business?
- A.
B.
C.
D.
24. Which of the following is not part of the business analysis process?
- A.
B.
C.
D.

25. Which of the following best describes a business model?
- A.
 - B.
 - C.
 - D.
26. Process documentation does not include which of the following?
- A.
 - B.
 - C.
 - D.
27. Which of the following is not a purpose of documentation?
- A.
 - B.
 - C.
 - D.
28. Business models provide value in all of the following areas except which one?
- A.
 - B.
 - C.
 - D.
29. Which of the following best describes the purpose of an activity model?
- A.
 - B.
 - C.
 - D.

30. Which of the following is not a common element of activity models regardless of the specific modeling notation?
- A.
 - B.
 - C.
 - D.
31. Which of the following is not a building block for Business Process Modeling Notation (BPMN) diagrams?
- A.
 - B.
 - C.
 - D.
32. Which of the following best describes the purpose of an event in a Business Process Modeling Notation (BPMN) activity diagram?
- A.
 - B.
 - C.
 - D.
33. Which of the following best describes the purpose of a gateway in a Business Process Modeling Notation (BPMN) activity diagram?
- A.
 - B.
 - C.
 - D.
34. Which of the following symbols depicts an intermediate event?
- A.
 - B.
 - C.
 - D.

35. Which of the following symbols depicts an activity?
- A.
 - B.
 - C.
 - D.
36. Which of the following symbols is used to depict different organizations in one Business Process Modeling Notation (BPMN) diagram?
- A.
 - B.
 - C.
 - D.
37. Which of the following best describes the purpose of a swimlane?
- A.
 - B.
 - C.
 - D.
38. Which of the following best describes a Business Process Modeling Notation (BPMN) message flow?
- A.
 - B.
 - C.
 - D.
39. Which of the following best describes the difference between a Business Process Modeling Notation (BPMN) gateway and a flowcharting decision diamond?
- A.
 - B.
 - C.
 - D.

40. Which of the following is a difference between Business Process Modeling Notation (BPMN) activity diagrams and flowcharts?

- A.
- B.
- C.
- D.

41. Use the following description to create a Business Process Modeling Notation (BPMN) activity diagram of the process.

Nora accesses the Amazon.com website to purchase a favorite musician's latest album. She searches for the musician's name. Amazon displays the results of the search, and she selects the correct entry. She samples the music and then decides whether to purchase the album. If she decides to purchase the album, then she must decide whether to purchase a physical CD or just download the MP3 files.

If she decides to purchase the CD, she clicks on the buy now button. Since she is an Amazon Prime member, she automatically receives free 2-day delivery and the item is charged to her credit card. She then waits 2 days for the delivery of the CD. When it arrives, she can enjoy the music.

If she decides to purchase the MP3, she selects that option and again clicks on the buy now button. She is charged for the item and taken to a page to download her music. She downloads the album, and then she can enjoy her music.

42.

Use the following description to create a Business Process Modeling Notation (BPMN) activity diagram of the process.

Jeremy is using his bank's online banking site to pay for his new phone. He logs onto the bank's website by entering his user name and password, confirming his SiteKey. After access to his account, he selects the Bill Pay tab. He searches to see if the phone company is already listed in the "Pay To Accounts."

If the phone company is not listed, he clicks on the option to "Add a New Pay To Account." He fills in the information for the phone company, including the name, address, account number, and phone number. After completing the entry, he is taken back to the list of "Pay To Accounts."

If the phone company is listed (or if he just completed entering the new account), he enters the amount of the payment. Then, he selects the option to set up a recurring payment. He enters the number of payments. Then, he selects the date that the payment should be sent each month. He then logs out of the bank's online banking site and closes his browser.

43.

Use the following description to create a Business Process Modeling Notation (BPMN) activity diagram of the process.

Caitlin is planning to run in the local July 4th 5K run. She wants to register online, but she forgot the websites URL. So, she navigates to Google and starts a search for the site. She selects the registration site from the search results. Once at the site, she selects the option to register for the 4th of July run. She fills in the registration form and provides her credit card information for payment.

After completing her own registration, she decides to register the other members of her team. One-by-one, she enters the registration information for the team member and pays for their entry. After completing all the registrations, she provides a user name and password so she can return to the site to see their results after the race. She logs out of the site and closes her browser.

Chapter 02 Accountants as Business Analysts **Key**

1. Accountants now face a challenge of helping businesses optimize processes.

TRUE

AACSB: Analytic
AICPA BB: Leveraging Technology
AICPA FN: Leveraging Technology
Blooms: Remember
Difficulty: 1 Easy
Learning Objective: 02-01 Describe the roles of the accounting/finance function in business and why those roles require knowledge of technology and business processes.
Richardson - Chapter 02 #1
Source: Original
Topic: Business analysis

2. To be valuable business partners, accountants must understand how the business delivers value to its employees.

FALSE
