- a. True
- b. False

ANSWER: True

RATIONALE: Bracket creep occurs when a taxpayer's income increases at the rate of inflation yet he or she are moved into a higher tax bracket. Adjusting the tax brackets for the effects of inflation avoids bracket creep. If there is only a single tax rate, a person won't move into a higher (or lower) tax bracket.

- a. A resident dies and leaves his farm to his church.
 - b. A large property owner issues a conservation easement as to some of her land.
 - c. A tax holiday issued 10 years ago has expired.
 - d. A bankrupt motel is acquired by the Red Cross and is to be used to provide housing for homeless persons.
 - e. None of these.

ANSWER:

c

RATIONALE:

Although the farm was probably subject to reduced valuation (due to its agricultural use), it will now be fully exempt since it is owned by a church (choice a.). Property that is subject to a conservation easement is usually appraised at a lower value (choice b.). The expiration of a tax holiday means that the property involved can now be taxed (choice c.).  - To avoid a future decline in value of the property transferred.
 - To take advantage of the per donee annual exclusion.
 - To shift income to higher bracket donees.
 - None of these.

ANSWER: c

RATIONALE: The per donee annual exclusion is available only for gift tax purposes (choice c.). Ideally, gifts should involve property that is expected to *appreciate* in value (choice b.). A higher unified tax credit is not available for gift tax purposes (choice a.). Usually the donor is trying to shift future income to *lower* bracket donees (choice d.).

101. State income taxes *generally* can be characterized by:
- The same date for filing as the Federal income tax.
 - No provision for withholding procedures.
 - Allowance of a deduction for Federal income taxes paid.
 - Applying only to individuals but not to corporations.
 - None of these.

- a. It does not apply when one spouse works for the other spouse.
- b. It is imposed only on the employer.
- c. It provides a modest source of income in the event of loss of employment.
- d. It is administered by both state and Federal governments.
- e. None of these.

ANSWER: e

RATIONALE: FICA is imposed on *both* the employer and the employee (choice b.). Spouses who work for each other are not exempt from the tax (choice a.). Its objective is retirement income, not loss of employment (choice c.). FICA is administered only by the Federal government (choice d.).

- c. Compliance requires following guidelines issued by both state and Federal regulatory authorities.
- d. It is applicable to spouses of employees but *not* to any children under age 18.
- e. None of these.

ANSWER: c

RATIONALE: FUTA is imposed only on the employer (choices a. and b.). Choice d. refers to FICA. Because the administration of FUTA is shared by Federal and state governments, employers must comply with the rules issued by each (choice c.).

- a. Would increase the number of deductions available to individuals
- b. Would not require individuals to file returns.
- c. Would tax the increment in value as goods move through the production and manufacturing stages to the marketplace.
- d. Is a type of consumption tax.
- e. None of these.

ANSWER: d

RATIONALE: There is only a single rate. The tax base is simplified by taxing only limited types of income. Many deductions and credits would be eliminated, which results in the tax being more of a form of consumption tax when considering how the individual and business tax systems operate.

- a. Most taxpayer audits involve “special” agents.
- b. Self-employed taxpayers are less likely to be selected for audit than employed taxpayers.
- c. Less important issues are handled by means of a correspondence audit.
- d. If a taxpayer disagrees with the IRS auditor’s finding, the only resort is to the courts.
- e. None of these.

ANSWER: c

RATIONALE: Special agents are assigned to an audit only when fraud might be involved (choice a.). Self-employed persons have more flexibility in manipulating income and deductions than do employed taxpayers (choice b.). The next step after an initial audit would be the Appeals Division within the IRS (choice d.). Settlement at this level could avoid costly litigation.

- a. When negligence and civil fraud apply to a deficiency, the negligence penalty predominates.
- b. When criminal fraud can result in a fine and a prison sentence.
- c. When the criminal fraud penalty is 75% of the deficiency attributable to the fraud.
- d. When the IRS has the same burden of proof in the case of criminal fraud as with civil fraud.
- e. None of these.

ANSWER: b

RATIONALE: Choice b. describes criminal fraud, while choice c. describes civil fraud. When both negligence and civil fraud exist as to the same deficiency, both penalties cannot apply, and the civil fraud penalty predominates (choice a.). In the case of criminal fraud, the IRS must also show willfulness on the part of the taxpayer (choice d.).

The credit may not exceed \$50 in any year. State Y's director of finance has discovered this year that the amount of credit claimed is far higher than expected. Which principle of good tax policy might not have been considered in designing this tax that caused the original cost estimate to be too low?
- a. Equity.
 - b. Simplicity.
 - c. Economy in collection.
 - d. Minimum tax gap.

d

RATIONALE:

If not well defined, many expenses might qualify as college prep materials. Also, some taxpayers may just claim a credit of \$1 to \$50 thinking that they likely have some purchase, such as books or magazines, that qualify or that they will not be caught for improperly claiming a small tax credit for which they do not qualify.

- b. The United States has imposed a VAT since 1913.
- c. A VAT has been proposed in the United States to replace part of the income tax.
- d. A VAT operates similarly to a sales tax.

ANSWER: b

- a. Ability to pay.
- b. Equity and fairness.
- c. Simplicity.
- d. Revenue neutrality.

ANSWER: a

RATIONALE: The installment sale method allows a taxpayer selling property with the buyer paying over more than one year to report gain only as he collects the purchase price. This ensures that he has funds available for paying the tax on the gain.

173. For the tax year 2018, Noah reported gross income of \$300,000 on his timely filed Federal income tax return.

- a. Presuming that the general rule applies, when does the statute of limitations on assessments normally expire?
- b. Suppose that Noah inadvertently omitted gross income of \$76,000. When does the statute of limitations on assessments expire?
- c. Suppose the omission was deliberate, not inadvertent. When does the statute of limitations on assessments expire?

ANSWER:

- a. Three years from April 16, 2019 (April 15, 2019 is a Sunday and April 16, 2018 is a holiday in the District of Columbia, making the due date April 16, 2019).
- b. If more than 25% of gross income is omitted, a six-year statute applies (i.e., six years from April 16, 2019). In this case, it does because \$76,000 is more than \$75,000 ($25\% \times \$300,000$).
- c. If fraud is involved, the statute never expires.

176. Several years ago, Logan purchased extra grazing land for his ranch at a cost of \$240,000. In 2018, the land is condemned by the state for development as a highway maintenance depot. Under the condemnation award, Logan receives \$600,000 for the land. Within the same year, he replaces the property with other grazing land. What is Logan's tax situation if the replacement land cost:

- a. \$210,000?
- b. \$360,000?
- c. \$630,000?
- d. Why?

ANSWER:

- a. The full realized gain of \$360,000 [$\$600,000$ (condemnation proceeds) – $\$240,000$ (cost of land)] must be recognized, because only \$210,000 was reinvested. The condemnation proceeds of \$600,000 exceed the amount reinvested by more than \$360,000.
- b. Because only \$360,000 was reinvested in replacement property, \$240,000 ($\$600,000 - \$360,000$) of the gain must be recognized.
- c. Because the full \$600,000 was reinvested, no realized gain need be recognized.
- d. If some of the gain is not reinvested, consistent with the wherewithal to pay concept, there exists the ability to pay the tax. Thus, gain is recognized to the extent the proceeds are not reinvested.

ANSWER: The rent charged by Paige is not “arms length”; as such, Citron Corporation’s rent deduction is \$60,000 (not \$80,000). The \$20,000 difference is a nondeductible dividend distribution. For Paige, the change merely requires reclassification. Instead of \$80,000 of rent income, she has \$60,000 of rent income and \$20,000 of dividend income.

In 2007, Drab decided not to renew the lease and vacated the property. At that time, the value of the improvements was \$800,000. Roy sells the real estate in 2019 for \$1,200,000 of which \$900,000 is attributable to the improvements. When is Roy taxed on the improvements made by Drab Corporation?

ANSWER: Roy is not subject to taxation on the improvements until he disposes of the property (i.e., 2019). After a controversial Supreme Court decision years ago, Congress clarified the tax law to make it more consistent with the wherewithal to pay concept.

179. The Federal income tax is based on a pay-as-you-go system and has become a “mass tax.” Explain this statement.

ANSWER: The pay-as-you-go system is present in the wage and other withholding procedures. In the case of self-employed persons, it is manifested in the required quarterly payments for estimated taxes. The income tax became a mass tax during World War II when its coverage was extended to 74% of the population (from less than 6% in 1939).

181. Due to population change, Goose Creek School District has decided to close one of its high schools. Since it has no further need of the property, the school is listed for sale. The two bids it receives are as follows:

United Methodist Church	\$1,700,000
Planet Motors	1,600,000

The United Methodist Church would use the property to establish a sectarian middle school. Planet, a well-known car dealership, would revamp the property and operate it as a branch location.

If you were a member of the School District board, what factors would you consider in evaluating the two bids?

ANSWER: Although the bid from the United Methodist Church is higher, several other factors need to be considered. Does, for example, Goose Creek School District exempt property owned by churches from its *ad valorem* taxes? If so, losing this property from the tax base could prove very costly over the long run. Also, it is probable that income-producing property (such as a car dealership) would be taxed at a higher rate than that owned by a nonprofit organization (a school operated by a church). This assumes, of course, that the school would be taxed at all. The auto dealership also would generate sales tax.

ANSWER: The real estate taxes probably will increase for several reasons. The capital improvements and the conversion from residential to rental will trigger the increase. Furthermore, the furnishings may generate an *ad valorem* tax on personalty. (Depending on applicable law, furniture might not be subject to tax unless used for business purposes—such as in this case.)

ANSWER: The decrease probably came in 2017 when Deborah reached age 65. The increases probably occurred in 2018 when she added the pool and in 2019 when the residence was converted to rental property with the property reassessed due to the change in use and/or removal of the homestead exemption.

ANSWER:

- a. Such a holiday is designed to attract new industry to the area. This will bring more jobs and growth in consumption. On the other hand, if the tax holiday is too generous, this places a strain on available public revenue. The result could be that schools and capital maintenance (roads, public services) will suffer.
- b. The hotel occupancy tax and car rental surcharges are popular because they mainly impact visitors. Also, they can generate considerable revenue to finance major capital improvements. If these taxes become excessive, however, they could discourage major events (such as conventions).
- c. Such holidays are very popular with both merchants and consumers and serve the social need of defraying some of the costs of sending children to school. Once established, however, they are difficult to get rid of. Thus, they become an annual drain on sales tax revenue.

186. What is a severance tax? How productive can it be in terms of generating revenue?

ANSWER: A severance tax is one imposed when natural resources (e.g., oil, gas, iron ore, coal) are extracted. It is based on the notion that the state has an interest in such resources. For some states, the revenue from severance taxes can be significant. Alaska, for example, relies heavily on its severance taxes and has been able to avoid both a state income tax and a general sales tax.

ANSWER: An inheritance tax is a tax on the right to receive property from a decedent. An estate tax is imposed on the right to pass property at death. The Federal government imposes estate taxes and states impose inheritance taxes. Some states impose both, whereas others impose neither.

190. Virtually all state income tax returns contain checkoff boxes for donations to various causes. On what grounds has this procedure been criticized?

ANSWER: In many cases, the procedure is overused (i.e., a multiplicity of boxes). This overuse adds complexity to the return. Also, in most cases, the donation is being drawn from any income tax refund that might be due. Thus, taxpayers may not fully appreciate that they are paying for such checkoffs.

- a. Decouple what would be part of the piggyback format of the state income tax.
- b. Tax amnesty provisions.
- c. Internet shaming.

ANSWER:

- a. The decoupling process is easily accomplished regarding new Federal tax changes that have never taken effect at the state level. Taxpayers are not apt to miss what they never have enjoyed.
- b. Tax amnesty provisions generate considerable revenue. It also unmasks many taxpayers who have not previously paid taxes. Now that the taxing jurisdiction is aware of their existence, they will tend to pay taxes in the future.
- c. By use of a public Internet site, the taxing authority posts the names of those taxpayers that are delinquent as to various taxes (e.g., sales, income). This public humiliation (or threat of) very often results in compliance.

Eric is the owner and operator of a cash-and-carry liquor store. Eric wonders why he was audited. Can you help explain?

ANSWER: Although Eric's audit by the IRS could be the result of sheer chance, this appears unlikely. Press coverage of the burglary, particularly if the items stolen were enumerated, could have put the IRS on notice. Why would anyone keep such a large amount of cash at his personal residence? Also, Eric is in a business where tax evasion is easily accomplished.

What course of action should you follow?

ANSWER: You should recommend to Melinda that an amended return be filed for 2018 correcting the error. If she refuses, you should assess the gravity of the error and how it impacts on your ability to file an accurate return for 2019. If you cannot do so, then you must decline the engagement.

Second, as an average income employee, she is unlikely to be audited by the IRS. Third, she feels that she has probably lost this much in other past office pools. How do you respond?

ANSWER: As a practitioner, you cannot play the audit lottery. You must presume that she will be audited regardless of the probabilities. Although the use of estimates is allowed, Connie's assumptions as to her losses are not realistic. Even if they were reliable, gambling losses cannot be offset against gambling winnings but must be separately deducted. Thus, the \$12,000 must be reported as income or you cannot prepare Connie's return.

- b. A sunset provision does not account for the immediate revenue losses generated by a tax cut. It merely provides that such losses will not continue beyond a specified date when the tax cut expires and the former tax law is reinstated.

- a. What is the justification for this relief measure?
- b. What happens if the proceeds are not entirely reinvested?

ANSWER:

- a. By recognizing that the taxpayer's relative economic situation has not changed and that he or she lacks the wherewithal to pay a tax, any recognition of realized gain is deferred.
- b. If the proceeds from an involuntary conversion are not fully reinvested in property that is similar or related in service or use, recognized gain results. Such recognized gain cannot exceed realized gain and will be limited to the amount of the proceeds not reinvested. Recognition is based on the notion that the taxpayer now has the wherewithal to pay the tax that results.

- c. Availability of interest and penalties for taxpayer noncompliance.

- a. An increase in the amount of the standard deduction reduces the number of taxpayers who choose to itemize their personal deductions. This, in turn, reduces the deductions the IRS has to check.
- b. Limitations placed on casualty and theft losses curtail the number of taxpayers who can claim the deduction.
- c. The imposition of extra penalties, in addition to the tax owed, definitely deters taxpayer noncompliance.

When it disapproves, Congress may amend the Code to nullify its effect. Give an example of each one of these congressional reactions.

ANSWER: Congress approved of the judicial conclusion that most stock dividends should be nontaxable and amended the Code to this effect. However, it disagreed as to when leasehold improvements should be taxed to a lessor. Consistent with the wherewithal to pay concept, the improvements are to be taxed on the termination of the lease. Thus, Congress overturned a judicial holding that would have taxed such improvements in the year they are made by the lessee.

210. Congressman Smith wants to impose a new tax on sugar drinks. Analyze this proposal against the principles of equity, simplicity, and neutrality.

ANSWER:

- Equity – The tax is regressive in that it will represent a larger portion of a low-income individual's income relative to a higher-income individual.
- Simplicity – While it sounds simple because the ingredients on a container should indicate if there is sugar, issues might arise as to how other forms of sugar, such as corn syrup, affect application of the tax. Also, the amount of sugar in beverages can vary, so some might argue that the tax should not apply if the sugar level is minimal. Will the tax apply to drinks already subject to the alcohol taxes? (Include some discussion of problems of defining sugar drink in the answer.)
- Neutrality – The tax will likely reduce sales of sugar drinks.

A corporation pays many types of taxes, but like any other expenditure, some of these taxes are ultimately paid by an individual. Income taxes are included in the price the corporation charges for goods and services. Or all or part might result in reduced earnings affecting investors or through reduced wages affecting employees. The payroll taxes paid by the corporate employer are likely borne by workers in the form of lower wages. That is, if the employer did not have to pay the taxes, it could pay higher wages to employees. These taxes might also be borne by customers and investors.
