# Module 2

## **Introducing Financial Statements**

| Learning Objectives – Coverage by question                              |            |                               |             |                    |        |
|---|------------|-------------------------------|-------------|--------------------|--------|
|   | True/False | Multiple Choice               | Exercises   | Problems           | Essays |
| LO1 – Examine and interpret a balance sheet.                            | 1-7, 11    | 1-8, 13-15,<br>24, 26, 27, 29 | 1-7, 9-13   | 1-3, 5, 6,<br>9-12 | 1      |
| LO2 – Examine and interpret an income statement.                        | 7-9        | 9-12, 25,<br>28, 30           | 1, 2, 9, 10 | 4, 5, 9-12         |        |
| LO3 – Examine and interpret a statement of stockholders' equity.        |            |                               | 1, 2, 10    | 9-12               |        |
| LO4- Describe a statement of cash flows.                                | 10         | 20-23                         | 1, 2, 10    | 9-12               |        |
| LO5 – Construct and apply linkages among the four financial statements. | 12-14      | 16-23                         | 8-10        | 7-12               | 2      |
| LO6 – Locate and use additional information from public sources.        | 15, 16     |                               |             |                    |        |

### Module 2: Introducing Financial Statements and Transaction Analysis

#### True/False

#### **Topic: Definition of an Asset**

LO: 1

1. In order for an asset to be reported on the balance sheet, it must be owned or controlled by the company and be expected to provide future benefits.

Answer: True

Rationale: Assets reported on the balance sheet must be owned or controlled by the company and must be expected to provide future benefits. These benefits can relate to the expected receipt of cash or another asset, or the expected decrease in a liability.

#### **Topic: Historical Cost**

LO: 1

2. Assets are reported on the balance sheet at their current market value.

Answer: False

Rationale: Assets are generally reported at historical costs. An exception is marketable securities.

#### Topic: Book vs. Market Value

LO: 1

**3.** The book value of stockholders' equity (the amount reported on the balance sheet) is most typically equal to the market value of the equity of a company.

Answer: False

Rationale: Book value and market value differ for many reasons, including reporting assets at historical costs instead of current market value, and differences between the accounting periods in which transactions are recognized in the financial statements and when the value implications of those transactions are recognized by the capital markets.

#### **Topic: Reporting of Assets and Liabilities**

LO: 1

4. Assets are listed on the balance sheet in order of liquidity and liabilities are listed in order of maturity.

Answer: True

Rationale: Assets are reported in the order that they are generally expected to be converted into cash. Receivables are, thus, reported before inventories, and inventories before PPE. Liabilities are reported in order of maturity, with current liabilities expected to be paid within one year and long-term liabilities expected to be paid over a longer period of time.

#### **Topic: Unrecorded Assets**

LO: 1

**5.** In addition to purchased assets like inventories and equipment, companies also may report on their balance sheets intangible assets such as the value of a brand name.

Answer: True

Rationale: Companies may report intangible assets if they acquired them in an arms' length transaction. But if the intangible was not purchased, if it was internally generated it may not be included on the balance sheet because its future economic benefits cannot be reliably measured. So, all internally generated intangible assets are excluded from the balance sheet under GAAP.

#### **Topic: Liabilities**

LO: 1

**6.** Liabilities and equities are both claims against the assets of a company.

Answer: True

Rationale: Both liabilities and equity are claims against the assets. In the event of default of a company, liabilities are settled first against the assets of the company. The owners, however, still have an interest in the remaining assets.

## Topic: Unearned Revenue and Revenue Recognition Principle (more challenging—involves unearned revenue and recognition thereof.)

LO: 1, 2

7. A customer's prepayment for services not yet rendered is initially recorded as unearned revenue (a liability). Then, at the end of the accounting period, the unearned revenue is moved from the balance sheet to the income statement. This is an example of the revenue recognition principle.

Answer: False

Rationale: Unearned revenue is recorded for customer prepayments. But it is only moved to the income statement when the services have been rendered and not automatically at the end of the accounting period.

### Topic: Revenue Recognition Principle and Cash

LO: 2

**8.** According to the revenue recognition principle, companies are required to record revenue when cash is received as this provides the most objective evidence for the auditors.

Answer: False

Rationale: Revenue is recognized when the company has done what it is obligated to do under the sales contract, such as, when goods have been transferred or services performed for the customer. This means a sale of goods on credit would qualify for recognition of revenue although no cash was received.

### Topic: Accrual Accounting for Expenses

LO: 2

**9.** Under accrual accounting principles, the cost of inventory should be reported as an expense in the income statement when it is sold, regardless of when it was purchased.

Answer: True

Rationale: Under accrual accounting, the cost of inventory is reported as expense in the period in which it is used up, typically at the point of sale. Purchased inventories that have not yet been sold are reported as assets, notwithstanding whether or not they have been paid for.

#### **Topic: Statement of Cash Flows**

LO: 4

10. The statement of cash flows has three main sections: cash flows from operating activities, cash flows from investing activities, and cash flows from capital activities.

Answer: False

Rationale: The statement of cash flows has three sections: cash flows from operating activities, cash flows from investing activities, and cash flows from financing activities.

#### **Topic: Net working Capital**

LO: 1

11. Net working capital = Current assets + Current liabilities

Answer: False

Rationale: Net working capital = Current assets less current liabilities.

#### **Topic: Articulation of Financial Statements**

LO: 5

12. Articulation refers to the concept that financial statements are linked to each other and linked across time.

Answer: True

Rationale: Balance sheets are linked over time because the permanent accounts' closing balance last period becomes the opening balance in the current period. The statements are linked to each other via cash (statements of cash flow and balance sheets), via retained earnings (income statements and balance sheets), and via equity accounts (statements of stockholders' equity and balance sheets).

#### **Topic: Articulation of Financial Statements**

LO: 5

13. The income statements of the prior and current year are linked via the balance sheet.

Answer: False

Rationale: The balance sheets of the prior and current year are linked via the income statement.

#### **Topic: Articulation of Retained Earnings**

LO: 5

14. Retained earnings articulate across time which means that last period's retained earnings plus current period net income (or loss) is equal to the current period's retained earnings.

Answer: False

Rationale: Last period's retained earnings plus current period net income (or loss) less any dividends paid, is equal to the current period's retained earnings.

© Cambridge Business Publishers, 2018

### **Topic: Additional Information Sources**

LO: 6

**15.** All companies must file with the SEC a detailed annual report and discussion of their business activities in their Form 10-K.

Answer: False

Rationale: Companies with publicly traded securities must file with the SEC, not all companies.

#### **Topic: Additional Information Sources**

LO: 6

**16.** A publicly traded company must file a Form 8-K with the SEC within four business days following a change in its certified public accounting firm.

Answer: True

Rationale: A change in a company's certified public accounting firm is one of several events in which the SEC requires a company to disclose the change by filing a Form 8-K within four business days following the event.

#### **Multiple Choice**

#### **Topic: Reporting of Assets**

LO: 1

- 1. Assets are recorded in the balance sheet in order of:
  - A) Market Value
  - B) Historic Value
  - C) Liquidity
  - D) Maturity
  - E) None of the above

Answer: C

Rationale: Liquidity refers to the ease of conversation to cash. Current Assets are to be used during the current operating cycle. Non-current assets, like equipment and goodwill are reported after current assets. Market value and historic value refer not to the order but to the valuation of assets. Maturity refers to the order in which liabilities are recorded in the balance sheet.

#### **Topic: Current Assets**

LO: 1

- 2. Which of the following are included in current assets?
  - A) Prepaid rent
  - B) Taxes payable
  - C) Automobiles
  - D) Common stock
  - E) None of the above

Answer: A

Rationale: Taxes payable is a liability, automobiles is not a current asset but a long-term one, and common stock is an equity.

#### Topic: Net Working Capital—Numerical calculations required

LO: 1

**3.** In 2016, Southwest Airlines had negative net working capital of \$(2,346) million and current assets of \$4,498 million.

The firm's current liabilities are:

- A) \$2,152 million
- B) \$6.844 million
- C) \$2.346 million
- D) \$5,236 million
- E) There is not enough information to calculate the amount.

Answer: B

Rationale: Net working capital = Current assets – Current liabilities.

Current liabilities = Current assets – Net working capital

Current liabilities = \$4,498 - \$(2,346)

Current liabilities = \$6,844 million

© Cambridge Business Publishers, 2018

### **Topic: Net Working Capital—Numerical calculations required**

LO: 1

**4.** In 2016, Delphi Automotive PLC had current assets of \$5,419 million and current liabilities of \$4,148 million.

The firm's net working capital is:

- A) \$ 1,271 million
- B) \$ 5,419 million
- C) \$ (1,271) million
- D) \$ 9,567 million
- E) None of the above

Answer: A

Rationale: Net working capital = Current assets – Current liabilities.

Net working capital = \$5,419 – \$4,148 Net working capital = \$1,271 million.

### Topic: Net Working Capital—Numerical calculations required

LO: 1

**5.** In 2016, Kohl's Corporation had net working capital of \$2,273 million and current liabilities of \$2,974 million.

The firm's current assets are:

- A) \$ 8,221 million
- B) \$ (8,221) million
- C) \$ 5,247 million
- D) \$ 2,974 million
- E) None of the above

Answer: C

Rationale: Net working capital = Current assets – Current liabilities.

\$2,273 = Current assets - \$2,974

Current assets = \$5,247

#### **Topic: Liabilities**

LO: 1

- **6.** Which one of the following is *not* a current liability?
  - A) Taxes payable
  - B) Accounts payable
  - C) Wages payable
  - D) Wage expense
  - E) None of the above

Answer: D

Rationale: Wage expense is an income statement account, not a balance sheet account. It is not a current liability.

#### Topic: Stockholders' Equity

LO: 1

- 7. Which of the following is included as a component of stockholders' equity?
  - A) Buildings
  - B) Retained earnings
  - C) Prepaid property taxes
  - D) Accounts payable
  - E) Dividends

Answer: B

Rationale: Retained earnings is a component of stockholders' equity. Dividends affect retained earnings but they are not reported as a separate component.

#### Topic: Recognition of Costs as Expense

LO: 1

- **8.** As inventory and property plant and equipment on the balance sheet are consumed, they are reflected:
  - A) As a revenue on the income statement
  - B) As an expense on the income statement
  - C) As a use of cash on the statement of cash flows
  - D) On the balance sheet because assets are never consumed
  - E) Both B and C because the financial statements articulate

Answer: B

Rationale: As assets are consumed (used up), their cost is transferred to the income statement as expenses. Cash is not involved so C and E are incorrect.

#### **Topic: Income Statement**

LO: 2

- 9. Interest expense appears in which financial statement?
  - A) Statement of stockholders' equity
  - B) Balance sheet
  - C) Income statement
  - D) Statement of cash flows
  - E) All of the above

Answer: C

Rationale: Expenses, including interest expense, appear in the income statement.

#### Topic: Gross Profit—Numerical calculations required

LO: 2

**10.** During fiscal 2016, Mattel had sales of \$5,456,650, total expenses of \$5,138,628 and gross profit of \$2,554,391.

What was Mattel's cost of sales for 2016? (\$ in thousands)

- A) \$2,102,065 thousand
- B) \$5,138,628 thousand
- C) \$2,902,259 thousand
- D) \$ 903,944 thousand
- E) There is not enough information to calculate the cost of sales.

Answer: C

Rationale: Sales – Cost of sales = Gross profit \$ 5,456,650 – Cost of sales = \$2,554,391 Cost of sales = \$2,902,259 thousand

### Topic: Net Income—Numerical calculations required

LO: 2

**11.** During fiscal 2016, Kohl's had sales of \$18,686 million, Cost of merchandise sold of \$11,944 million, and gross profit of \$6,741 million.

What was net income for 2016?

- A) \$ 6.741 million
- B) \$11,944 million
- C) \$ 5,299 million
- D) \$18,686 million
- E) There is not enough information to calculate the amount.

Answer: E

Rationale: Sales – Total expenses = Net income. There is no information about total expenses, so we cannot compute net income.

### Topic: Net Income—Numerical calculations required LO: 2

**12.** During 2016, Skechers U.S.A., Inc. had Sales of \$3,563.3 million, Gross profit of \$1,634.6 million and Selling, general, and administrative expenses of \$1,278.0 million.

What was Skechers' Cost of sales for 2016?

- A) \$1.115.7 million
- B) \$1,928.7 million
- C) \$ 88.1 million
- D) \$1,549.5 million
- E) There is not enough information to calculate the amount.

Answer: B

Rationale: Sales - Cost of sales = Gross profit

\$3,563.3 – Cost of sales = \$1,634.6. Cost of sales = \$1,928.7 million

## Topic: Components of Financial Statements—Numerical calculations required (more challenging; total assets not given)

LO: 1

**13.** In its December 31, 2016 financial statements, Harley-Davidson reported the following (in millions):

| Long-term<br>Assets | Current<br>Liabilities | Long-term<br>Liabilities | Total<br>Liabilities | Equity  |
|---------------------|------------------------|--------------------------|----------------------|---------|
| \$6,036             | \$ 2,863               | \$ 5,107                 | \$7,970              | \$1,920 |

At December 31, 2016, current assets amount to:

- A) \$2,863 million
- B) \$3,854 million
- C) \$7,970 million
- D) \$5,519 million
- E) None of the above

Answer: B

Rationale: Total assets = Total liabilities + Equity. Total assets – Long-term assets = Current assets. Current assets = \$7,970 + \$1,920 – \$6,036.

Current assets = \$3,854 million

## Topic: Components of Financial Statements—Numerical calculations required LO: 1

**14.** In 2016, Nordstrom, Inc. reported the following (in millions):

| Current | Current     | Long-term   | Equity |
|---------|-------------|-------------|--------|
| Assets  | Liabilities | Liabilities |        |
| \$3,242 | \$3,029     | \$3,959     | \$870  |

What amount did Nordstrom report as total assets?

- A) \$ 4,616 million
- B) \$ 3,950 million
- C) \$ 7,307 million
- D) \$13,170 million
- E) None of the above

Answer: E

Rationale: Total assets = Total liabilities + Equity

Total assets = \$3,029 + \$3,959 + \$870 = \$7,858 million.

This amount is not given in the problem.

## Topic: Components of Financial Statements—Numerical calculations required LO: 1

**15.** In 2016, Caterpillar Inc. reported the following (in millions):

| Current  | Long-term | Current     | Total       |
|----------|-----------|-------------|-------------|
| Assets   | Assets    | Liabilities | Liabilities |
| \$31,967 | \$42,737  | \$26,132    | \$61,491    |

What amount did Caterpillar report as equity in 2016?

- A) \$36,721 million
- B) \$13,213 million
- C) \$84,896 million
- D) \$17,457 million
- E) None of the above

Answer: B

Rationale: Total assets = Total liabilities + Equity

\$31,967 + \$42,737 = \$61,491 + Equity

Equity = \$13,213 million.

## Topic: Articulation of Statement of Retained Earnings with Income Statement—Numerical calculations required

LO: 5

**16.** During fiscal year-end 2016, Kohl's Corporation reports the following (in \$ millions): net income of \$556, retained earnings at the end of the year of \$12,522 and retained earnings at the beginning of the year of \$12,329. Assume that there were no other retained earnings transactions during fiscal 2016.

What dividends did the firm pay in fiscal year ended January 28, 2017?

- A) \$ 683 million
- B) \$1,669 million
- C) \$ 363 million
- D) \$-0-
- E) There is not enough information to calculate the amount.

Answer: C

Rationale: Retained earnings, 2016 = Retained earnings, 2015 + Net Income – Dividends

Dividends = Retained earnings, 2015 + Net Income – Retained earnings, 2016

Dividends = \$12,329 + \$556 - \$12,522 = \$363 million

#### Topic: Articulation of Statement of Retained Earnings with Balance Sheet-Numerical calculations required

LO: 5

17. Caterpillar Inc. reports a net loss for 2016 of \$(67) million, retained earnings at the end of the year of \$27,377 million, and dividends during the year of \$1,802 million.

What was the company's retained earnings balance at the start of 2016?

- A) \$29,246 million
- B) \$30,361 million
- C) \$28,065 million
- D) \$26,572 million
- E) There is not enough information to calculate the amount.

#### Answer: A

Rationale: Retained earnings, 2016 = Retained earnings, 2015 + Net Income - Dividends 27.377 = Retained earnings, 2015 + (67) - 1.802.

Retained earnings at the start of the year were \$29,246 million.

#### Topic: Articulation of Statement of Retained Earnings with Balance Sheet-Numerical calculations required

LO: 5

18. Pfizer Inc., a pharmaceutical company, reported net income for fiscal 2016 of \$7,215 million, retained earnings at the start of the year of \$71,993 million and dividends of \$7,448 million, and other transactions with shareholders that increased retained earnings during the year by \$14 million.

If there were no additional transactions during the year that affected retained earnings, what was the balance of retained earnings at the end of the year?

- A) \$ 71,774 million
- B) \$ 38,748 million
- C) \$124,926 million
- D) \$ 47,729 million
- E) There is not enough information to calculate the amount.

#### Answer: A

Rationale: Retained earnings, 2016 = Retained earnings, 2015 + Net Income – Dividends + Other Retained earnings, 2016 = \$71,993 + \$7,215 - \$7,448 +\$14 Ending retained earnings = \$71,774 million.

© Cambridge Business Publishers. 2018

## Topic: Articulation of Statement of Retained Earnings with Income Statement—Numerical calculations required

LO: 5

**19.** Intel reports retained earnings at the end of fiscal 2016 of \$40,747 million and retained earnings at the end of fiscal 2015 of \$37,614 million. The company reported dividends of \$4,925 million and other transactions with shareholders that reduced retained earnings during the year by \$2,258 million.

How much net income did the firm report in fiscal 2016?

- A) \$ 3,133 million net income
- B) \$ 3,133 million net loss
- C) \$10,316 million net income
- D) \$10,316 million net loss
- E) None of the above

Answer: C

Rationale:

Retained earnings, 2016 = Retained earnings, 2015 + Net Income – Dividends +/- Other transactions \$40,747 = \$37,614 + Net income – \$4,925 – \$2,258

Net income = \$10,316 million net income.

## Topic: Articulation of Statement of Cash Flows with Balance Sheet—Numerical calculations required

LO: 4, 5

**20.** In its fiscal 2016 annual report, Nike, Inc. reported cash of \$3,138 million at year end. The statement of cash flows reports the following (in millions):

| Net cash from operating activities | \$3,096 |
|------------------------------------|---------|
| Net cash from investing activities | (1,034) |
| Net cash from financing activities | (2.776) |

What was the balance in Nike's cash account at the start of fiscal 2016?

- A) \$3,096 million
- B) \$1,020 million
- C) \$3,852 million
- D) \$4.357 million
- E) None of the above

Answer: C

Rationale: Cash at end of year = Cash at beginning of year + Change in cash during the year 33,138 = 138 = 138 Cash at beginning of year + 33,096 = 1,034 = 2,776

Cash at beginning of year = \$3,852 million

## Topic: Articulation of Statement of Cash Flows with Balance Sheet—Numerical calculations required

LO: 4, 5

**21.** In its fiscal 2016 balance sheet, JetBlue Airways Corporation, reported cash of \$443 million at year-end. The statement of cash flows reports that cash increased by \$115 million during the year and that net cash flow from operating activities was \$1,632 million.

What was the cash flow from investing activities during the year?

- A) \$533 million cash outflow
- B) \$715 million cash inflow
- C) \$533 million cash inflow
- D) \$715 million cash outflow
- E) There is not enough information to determine the amount.

#### Answer: E

Rationale: Change in cash during the year = Cash from operations + Cash from investing + Cash from financing. We are only given two of the four amounts.

## Topic: Articulation of Statement of Cash Flows with Balance Sheet—Numerical calculations required

LO: 4, 5

22. In its fiscal year ended January 28, 2017 balance sheet, Big Lots, Inc., reported cash and cash equivalents at the start of the year of \$54,144 thousand. By the end of the year, the cash and cash equivalents had decreased to \$51,164 thousand. The company's statement of cash flows reported cash from operating activities of \$311,925 thousand, cash from financing activities of \$(230,204) thousand.

What amount did the company report for cash from investing activities?

- A) \$122,391 thousand cash inflow
- B) \$ 7,966 thousand cash outflow
- C) \$ 84,701 thousand cash inflow
- D) \$ 84,701 thousand cash outflow
- E) None of the above.

Answer: D

Rationale: Cash at end of year = Cash at start of year + Cash from operations + Cash from investing + Cash from financing.

\$51,164 = \$54,144 + \$311,925 + Cash from investing + \$(230,204)

Cash from investing is an outflow of \$84,701 thousand.

### Topic: Statement of Cash Flows—Numerical calculations required

LO: 4. 5

**23.** On its fiscal year ended February 3, 2017 statement of cash flows, Dell Technologies Inc. reports the following (in millions):

| Net cash from operating activities | \$2,222  |
|------------------------------------|----------|
| Net cash from investing activities | (31,256) |
| Cash at the beginning of the year  | 6,576    |
| Change in cash during the year     | 2,898    |

What did Dell report for "Net cash from financing activities" during fiscal year ended 2017?

- A) \$31,932 million cash inflow
- B) \$31,932 million cash outflow
- C) \$2,898 million cash inflow
- D) \$2,898 million cash outflow
- E) None of the above

Answer: A

Rationale: Change in cash during the year = Cash from operations + Cash from investing + Cash from financing.

\$2,898 = \$2,222 + \$(31,256) + Cash from financing

Cash from financing = \$31,932 million

#### **Topic: Transaction Effects on the Balance Sheet**

LO: 1

- 24. How would cash collected on accounts receivable affect the balance sheet?
  - A) Increase liabilities and decrease equity
  - B) Decrease liabilities and increase equity
  - C) Increase assets and decrease assets
  - D) Increase assets and increase equity

Answer: C

Rationale: Cash collected on accounts receivable produces an increase in cash and a decrease in accounts receivable, both asset accounts. There is no impact on liabilities or on equity.

### Topic: Transaction Effects on the Income Statement (more challenging) LO: 2

- 25. How would a purchase of inventory on credit affect the income statement?
  - A) It would increase liabilities
  - B) It would decrease retained earnings
  - C) It would increase assets
  - D) Both A and C, above
  - E) None of the above

Answer: E

Rationale: The purchase on credit increases both accounts payable and inventory, which are balance sheet accounts. It would, therefore, have no effect on the income statement.

#### **Topic: Cash Conversion Cycle**

LO: 1

**26.** The cash conversion cycle is computed as

- A) Days sales outstanding + Days inventory outstanding Days payable outstanding
- B) Days sales outstanding Days payable outstanding
- C) Days sales outstanding Days inventory outstanding
- D) Days sales outstanding Days inventory outstanding + Days payable outstanding
- E) None of the above

Answer: A

Rationale: Cash conversion cycle = Days sales outstanding + Days inventory outstanding - Days payable outstanding.

### Topic: Cash Conversion Cycle—Numerical calculations required

LO: 1

**27.** Prestige Company has determined the following information for its recent fiscal year.

| Days inventory outstanding | 42.7 days |
|----------------------------|-----------|
| Days payable outstanding   | 56.8 days |
| Days sales outstanding     | 91.3 days |

Compute Prestige Company's cash conversion cycle.

- A) 8.2 days
- B) 77.2 days
- C) 105.4 days
- D) 99.5 days
- E) None of the above

Answer: B

Rationale: 91.3 days + 42.7 days - 56.8 days = 77.2 days

### Topic: Gross Profit Margin—Numerical calculations required

LO: 2

28. Following is Stanley Black & Decker's income statement for 2016 (in millions):

| STANLEY BLACK & DECKER, INC. Income Statement For the year ended December 31, 2016 |            |
|--|------------|
| (\$ millions)  |            |
| Sales  | \$11,406.9 |
| Cost of goods sold   | 7,139.7    |
| Gross profit   | \$4,267.2  |
| Selling, general and administrative expenses                                       | 2,602.0    |
| Other operating expenses   | 268.2      |
| Operating income   | 1,397.0    |
| Interest and other nonoperating expenses   | 171.3      |
| Income before income tax   | 1,225.7    |
| Income tax expense   | 261.2      |
| Net income   | \$964.5    |

Compute Stanley Black & Decker's gross profit margin.

- A) 63.6%
- B) 12.2%
- C) 37.4%
- D) 8.5%
- E) None of the above

Answer: C

Rationale: \$4,267.2 / \$11,406.9 = 37.4%

### Topic: Identifying and Classifying Balance Sheet Items

LO: 1

**29.** Identify which of the following items would be reported in the balance sheet.

a. Cash
b. Sales
d. Wage expense
e. Wages payable
d. Inventory

c. Long-term debt f. Retained earnings i. Cost of goods sold

Items reported in the balance sheet would include:

- A) a, b, c, e, and f
- B) b, e, f, h, and i
- C) c, d, e, h, and i
- D) a, c, e, f, and h
- E) c, e, f, h, and i

Answer: D

Rationale: Balance sheet items include: a. Cash, c. Long-term debt, e. Wages payable, f. Retained earnings, and h. Inventory.

### **Topic: Identifying and Classifying Income Statement Items**

LO: 2

**30.** Identify which of the following items would be reported in the income statement.

a. Cashb. Salesd. Wage expensee. Wages payableg. Net incomeh. Inventory

c. Long-term debt f. Retained earnings i. Cost of goods sold

Items reported in the income statement would include:

A) b, e, g, and h

B) a, b, d, and i

C) b, e, f, and g

D) d, f, g, and h

E) b, d, g, and i

#### Answer: E

Rationale: Income statement items include: b. Sales, d. Wages expense, g. Net income, and i. Cost of goods sold.

**4.** Identify the following as a component of Assets (A), Liabilities (L), or Equity (E)

| _Fin | ancial Statement Item | A/L/E |
|------|-----------------------|-------|
| a.   | Common stock          |       |
| b.   | Unearned revenue      |       |
| C.   | Notes payable         |       |
| d.   | Retained earnings     |       |
| e.   | Trademark             |       |
| f.   | Prepaid rent          |       |
| g.   | Accounts payable      |       |

#### Answer:

| Financial Statement Item |                   | A/L/E |
|--------------------------|-------------------|-------|
|                          |                   |       |
| a.                       | Common stock      | E     |
| b.                       | Unearned revenue  | L     |
| C.                       | Notes payable     | L     |
| d.                       | Retained earnings | E     |
| e.                       | Trademark         | Α     |
| f.                       | Prepaid rent      | Α     |
| g.                       | Accounts payable  | L     |

#### **Topic: Reporting of Assets**

LO: 1

5. Indicate the order of appearance on the balance sheet of the assets listed on the left.

| Asset               | Balance sheet order |
|---------------------|---------------------|
| Equipment           |                     |
| Accounts receivable |                     |
| Cash                |                     |
| Inventory           |                     |
| Goodwill            |                     |

| Asset               | Balance sheet order |
|---------------------|---------------------|
| Equipment           | 4                   |
| Accounts receivable | 2                   |
| Cash                | 1                   |
| Inventory           | 3                   |
| Goodwill            | 5                   |

### Topic: Reporting of Liabilities and Equity

LO: 1

**6.** Indicate the order of appearance on the balance sheet of the liabilities and equity accounts listed on the left.

| Liability / Equity   | Balance sheet order |
|--|---------------------|
| Bonds payable Retained earnings Accounts payable Contributed capital |                     |

#### Answer:

| Liability / Equity  | Balance sheet order |
|---------------------|---------------------|
| Bonds payable       | 2                   |
| Retained earnings   | 4                   |
| Accounts payable    | 1                   |
| Contributed capital | 3                   |

#### **Topic: Balance Sheet Accounts**

Financial statement item

LO: 1

**7.** For each of the following financial statement items, indicate the correct balance sheet classification, from the list below. You may use each balance sheet classification item only once.

#### Balance sheet classification

Balance sheet classification

- a. Current asset
- b. Long term asset
- c. Current liability
- d. Long term liability
- e. Equity
- f. None of the above

| Interest payable          |                              |
|---------------------------|------------------------------|
| Treasury stock            |                              |
| Insurance expense         |                              |
| Goodwill                  |                              |
| Note payable, due in 2025 |                              |
| Prepaid insurance expense |                              |
| Answer:                   |                              |
| Financial statement item  | Balance sheet classification |
| Interest payable          | c. Current liability         |
| Treasury stock            | e. Equity                    |
| Insurance expense         | f. None of the above         |
| Goodwill                  | b. Long term asset           |
| Note payable, due in 2025 | d. Long term liability       |
| Prepaid insurance expense | a. Current asset             |

## **Topic: Articulation of Retained Earnings Account LO: 5**

**8.** Caterpillar Inc.'s statement of stockholders' equity for 2016 and 2015 shows the following amounts. Fill in the missing items to show how retained earnings articulate across the years.

| (\$ millions)                        | 2016     | 2015     |
|--------------------------------------|----------|----------|
| Retained earnings, beginning of year | ?        | \$28,515 |
| Net income(loss) for the year        | (67)     | ?        |
| Dividends                            | ?        | (1,781)  |
| Retained earnings, end of year       | \$27,377 | \$29,246 |

#### Answer:

| (\$ millions)                        | 2016     | 2015     |
|--------------------------------------|----------|----------|
| Retained earnings, beginning of year | \$29,246 | \$28,515 |
| Net income (loss) for the year       | (67)     | 2,512    |
| Dividends                            | (1,802)  | (1,781)  |
| Retained earnings, end of year       | \$27,377 | \$29,246 |

Topic: Preparation of Financial Statements and Income Statement / Balance Sheet Articulation (more challenging—requires preparation of two financial statements)

LO: 1, 2

**9.** Super Style Clothing begins operations in November. During the month the company receives \$46,000 from a shareholder for common stock and gets a \$6,000 loan from a bank. The company buys \$38,000 of inventory for cash and sells half of the inventory for \$30,000 on credit. The company had no other transactions in November. Fill in the missing amounts below.

|               | SUPER STYLE CLOTHING      | } |

## Topic: Effects of Transactions on Balance Sheet Accounts LO: 1

- **11.** Miguel decided to open a lemonade stand on Saturdays. Match Miguel's business activities to the following balance sheet items. (*Note:* each balance sheet item can only be used once).
  - a. Borrowed cash from Dad to be repaid in two years.
  - b. Purchased tent from neighbor, at a garage sale.
  - c. Bought lemons, sugar and (secret ingredient) grapefruit.
  - d. The items in (c) will not be paid for until next month.
  - e. At the end of the day, Miguel has cash in his pocket from sales.
  - f. Mr. Wisner, a potential customer had no cash with him. Miguel agrees to let Mr. Wisner pay for his lemonade next Monday.

- 1) Long-term liability
- 2) Accounts payable
- 3) Accounts receivable
- 4) Long-term asset
- 5) Inventory
- 6) Cash

#### Answer:

- a. 1) Long-term liability
- b. 4) Long-term asset
- c. 5) Inventory
- d. 2) Accounts payable
- e. 6) Cash
- f. 3) Accounts receivable

## Topic: Market to Book Value and Unrecorded Intangible Assets LO: 1

**6.** Below are selected balance sheet and market data for three shoe companies. (\$ millions)

| Company             | Company<br>Year End | Assets | Liabilities | Number of shares<br>outstanding<br>(in millions) | End of year<br>stock price<br>(per share) |
|---------------------|---------------------|--------|-------------|--|---|
| Nike, Inc.          | May 31, 2016        | 21,396 | 9,138       | 1,682  | \$55.22                                   |
| Skechers, USA, Inc. | Dec. 31, 2016       | 2,394  | 708         | 155  | \$24.58                                   |
| Caleres, Inc.       | Jan. 28, 2017       | 1,475  | 861         | 43   | \$32.82                                   |

- a. Calculate the market capitalization of each company.
- b. Calculate the market to book ratio for each company.
- c. Comment on differences you observe.

#### Answer:

#### a. and b.

| Company             | Book Value of Equity<br>(Assets – Liabilities) | Market Capitalization<br>(Shares outstanding ×<br>stock price) | Market<br>to book ratio |
|---------------------|--|--|-------------------------|
| Nike, Inc.          | 12,258   | 92,880   | 7.58                    |
| Skechers, USA, Inc. | 1,686  | 3,810  | 2.26                    |
| Caleres, Inc.       | 614  | 1,411  | 2.30                    |

c. Nike has a market to book ratio of 7.56, the highest among the three companies. This means that Nike's economic value exceeds its GAAP book value by a factor of over 7.5. This is due to the fact that significant, valuable intangible assets are omitted from Nike's GAAP balance sheet. GAAP does not allow firms to capitalize (add to their balance sheets) the value of self-generated intangible assets. Nike's brand name and the "swoosh" symbol will bring future economic benefits—assets that the market clearly values. At the other end, Caleres and Skechers both have a market to book of about 2.30. This means that their brand names, while still valuable, are not significant enough to boost their stock price. Note that it would also be possible for a company to have a book value of equity that exceeds its market value. This would mean that the market undervalues this company, relative to GAAP, perhaps because the company's earning power is low.

## **Topic: Articulation of Retained Earnings LO: 5**

7. Following is information for Snap-On, Inc., for three recent years. Reconcile the retained earnings account for the three-year period.

| (in millions)                        |         |
|--------------------------------------|---------|
| Retained earnings, December 31, 2016 | 3,384.9 |
| Net income, 2016                     | 546.4   |
| Net income, 2015                     | 478.7   |
| Net income, 2014                     | 421.9   |
| Dividends*, 2016                     | 148.4   |
| Dividends*, 2015                     | 129.0   |
| Dividends*, 2014                     | 108.8   |

<sup>\*</sup>Dividends include "dividend reinvestment plan and other" amounts of: 1.2 (2014), 1.1 (2015) and 0.9 (2016).

## Topic: Applying Financial Statement Linkages to Understand Transactions LO: 1, 2, 3, 4, 5

- **9.** Consider the effects of the independent transactions, a through f, on a company's balance sheet, income statement, statement of cash flows, and statement of stockholders' equity.
  - a. Owner invests cash into the business in exchange for stock.
  - b. Recognizes account receivable for services provided.
  - c. Pays account payable with cash.
  - d. Buys land with cash.
  - e. Buys plant equipment on credit.
  - a. Borrows money by taking out loan at bank.

Complete the table below to explain the effects and financial statement linkages. Use "+" to indicate the account increases and "-" to indicate the account decreases.

|                                   | a. | D. | C. | a. | e. | T. |
|-----------------------------------|----|----|----|----|----|----|
| Balance sheet                     |    |    |    |    |    |    |

#### **Essay Questions**

#### Topic: Book Value vs. Market Value

LO: 1

**1.** Book value of stockholders' equity usually differs from company market value. Explain some reasons why a company's book value of stockholders' equity can differ from a company's market value.

#### Answer:

- 1. GAAP generally reports assets and liabilities at historical costs; whereas the market attempts to estimate fair values for assets.
- 2. GAAP excludes resources that cannot be reliably measured such as talented management, employee morale, recent innovations and successful marketing; whereas the market attempts to value these with some recognition of uncertainty.
- 3. GAAP does not consider market differences in which companies operate such as competitive conditions and expected changes; where as the market attempts to factor in these differences in determining value.
- 4. GAAP does not usually report expected future performance; whereas the market does attempt to predict future performance.

### Topic: Articulation of the Financial Statements

2. Explain the concept of articulation among the four financial statements.

#### Answer:

Articulation refers to the fact that the four financial statements are linked to each other and that changes in one statement affect the other three. For example, net income reported on the income statement is linked to the statement of stockholders' equity, which in turn is linked to the balance sheet. Also, the statement of cash flows explains how the cash reported on the balance sheet changes from one period to the next. Understanding how the financial statements articulate, helps us to analyze transactions and events and to understand how events affect each financial statement separately and all four together.
