a. beliefs

b. values

c. statuses

d. symbols

ANSWER: c

24. Which of the following is an aspect of the culture, in contrast to the social structure, of a society?

a. institutions

b. social groups

c. values

d. statuses

ANSWER: c

25. _____ are social agreements about what is considered good and bad, right and wrong, desirable and undesirable.

a. Norms

b. Values

c. Roles

d. Beliefs

ANSWER: b

26. "Secondhand smoke harms nonsmokers." This statement is an example of a

a. belief.

b. value.

c. folkway.

d. more.

ANSWER: a

27. Which of the following is the best example of a value?

a. equality

b. being sent to prison

c. a cross on a church

d. believing that God exists

ANSWER: a

28. Socially defined rules of behavior are

a. beliefs.

b. values.

c. norms.

d. sanctions.

ANSWER: c

29. Folkways, laws, and mores are three types of

a. sanctions.

b. norms.

c. values.

d. master statuses.

ANSWER: b

30. Jeff frequently picks his nose in class. He is violating a

a. value.

b. folkway.

c. more.

d. law.

ANSWER: b

31. Wearing clothes that are in style is an example of a

a. folkway.

b. more.

c. law.

d. sanction.

ANSWER: a

32. Which of the following is a violation of a more in American society?

a. refusing to shake hands with a new acquaintance

b. sexual abuse of a child

c. eating peas with your fingers

d. littering

ANSWER: b

33. Cheating on a spouse would be a violation of a

a. folkway.

b. more.

c. value.

d. belief.

ANSWER: b

34. _____ are norms that are formalized and backed by political authority.

a. Folkways

b. Mores

c. Laws

d. Values

ANSWER: c

35. Social consequences for conforming to or violating norms are

- a. values.
- b. folkways.
- c. mores.
- d. sanctions.

ANSWER: d

36. Ernie was caught speeding and given a fine. The fine is an example of a(n)

- a. value.
- b. folkway.
- c. informal sanction.
- d. formal sanction.

ANSWER: d

Janet receives disapproving looks from strangers for singing loudly while walking down the street. The disapproving looks Janet receives are examples of

37. Janet receives disapproving looks from strangers for singing obnoxiously while walking down the stre...

- a. values.
- b. folkways.
- c. informal sanctions.
- d. formal sanctions.

ANSWER: c

Loreli dieted and worked out resulting in significant reduction in size and weight. Which of the following is an informal positive sanction?

38. Loreli dieted and worked out resulting in significant ...

- a. She feels much better about herself than she did before the weight loss.
- b. Friends tell her she looks great.

- c. formulating a hypothesis.
- d. defining variables.

ANSWER: b

81. Gender, self-esteem, crime rates, and religiosity are examples of

- a. variables.
- b. hypotheses.
- c. operational definitions.
- d. samples.

ANSWER: a

82. An event or characteristic that is measurable and varies or is subject to change is a(n)
a. hypothesis.
b. sample.
c. variable.
d. operational definition.

ANSWER: c

83. In research, an operational definition
a. specifies how a variable is to be measured.
b. explains the relationship between two variables.
c. defines the researcher's hypothesis.
d. refers to any variable that cannot be measured.

ANSWER: a

A(n) ____ of religiosity could be the number of times respondents report going to church or synagogue in a month or year.

84. A(n) ____ of religiosity could be the number of times respondents report going to church or synagogue in...
a. theory
b. operational definition
c. hypothesis
d. sample

ANSWER: b

85. The researcher's hypothesis
a. identifies a sample to use for the research.
b. explains how to measure the variables.
c. summarizes the review of literature.
d. predicts a relationships between the variables.

ANSWER: d

Anna is studying whether drug use contributes to lower academic achievement of high school youth. Anna's independent variable is

86. Anna is studying whether drug use contributes to lower academic achievement of high school youth. An...
a. youth.
b. drug use.
c. high school.
d. academic achievement.

ANSWER: b

The _____ variable is the variable that is expected to explain change in the dependent variable.

87. The _____ variable is the variable that is expected to explain ...

- a. independent
- b. dependent
- c. operational
- d. theoretical

ANSWER: a

88. Which research method involves manipulating a variable in order to determine how it affects another variable?

- a. experiment
- b. field research
- c. survey
- d. secondary data

ANSWER: a

Alice wanted to study the effects of a new teaching technique on learning. She randomly divided her student subjects into two groups and used the new teaching technique with just one of the groups. Then she administered an exam to the two groups and compared their grades. Her experimental group was the group who

89. Alice wanted to study the effects of a new teaching technique on learning. She randomly divided her ...

- a. got the highest grades.
- b. was exposed to the new teaching technique.
- c. was not exposed to the new teaching technique.
- d. got the lowest grades.

ANSWER: b

90. The major strength of the experimental method is that

- a. experimental research findings are easily generalized to larger groups in society.
- b. it provides evidence for causal relationships.
- c. it is more likely than other methods of data collection to show an association between the variables of interest.
- d. it is an easy way to collect information on almost all sociological variables.

ANSWER: b

For which method of data collection is it most important to select a representative sample so that the information may be generalized to a larger population?

91. For which method of data collection is it most important to select ...

- a. an experiment
- b. a survey
- c. participant observation

d. a case study

ANSWER: b

A method of data collection in which a researcher asks respondents a series of questions and makes written notes or recordings to be analyzed later is called a(n)

92. A method of data collection in which a researcher asks respondents a series of questions and makes ...

a. questionnaire.

b. experiment.

c. secondary data analysis.

d. interview.

ANSWER: d

93. For which data collection method is response rate the major disadvantage?

a. experiment

b. field research

c. questionnaire

d. secondary data research

ANSWER: c

Jasmine received a list of questions in the mail. She was asked to answer the questions on paper and return them to a researcher. Jasmine was asked to participate in

94. Jasmine received a list of questions in the mail. She was asked ...

- b. False

ANSWER: True

103. A single status, such as mother, can involve more than one role.

- a. True
- b. False

ANSWER: True

104. Freedom and individualism are examples of American values.

- a. True
- b. False

ANSWER: True

105. Being granted a citizen's award for organizing a crime watch is an informal sanction.

- a. True
- b. False

ANSWER: False

106. Symbols include language, gestures, and objects.

- a. True
- b. False

ANSWER: True

107. Some aspects of society can be both functional and dysfunctional.

- a. True
- b. False

ANSWER: True

108. Public schools serve as babysitters for employed parents. This is a manifest function of a public school.

- a. True
- b. False

ANSWER: False

109. According to structural functionalists, social problems occur when some part of the structure or culture of a society fails to work properly.

- a. True
- b. False

ANSWER: True

110. The social pathology model advocates proper socialization and moral education as a solution to social problems.

- a. True
- b. False

ANSWER: True

111. Marxist conflict theories focus on the ways in which individuals create meaning through interaction.

- a. True
- b. False

ANSWER: False

112. Non-Marxist conflict theorists focus on order and stability in a society.

- a. True
- b. False

ANSWER: False

113. According to symbolic interactionists, a condition must be defined or recognized as a social problem for it to be a social problem.

- a. True
- b. False

ANSWER: True

114. According to Herbert Blumer, "social legitimation" of a social problem takes place when the problem achieves recognition by the larger community, such as the media.

- a. True
- b. False

ANSWER: True

115. The first stage of conducting a research study is developing a hypothesis.

- a. True
- b. False

ANSWER: False

116. A researcher can draw on his or her life experience when formulating a research question for scientific study.

- a. True
- b. False

ANSWER: True

117. A dependent variable is the variable that the researcher believes contributes to change in the variable of interest.

- a. True
- b. False

ANSWER: False

118. Sociologists seldom use questionnaire research because it is a relatively expensive way to do research.

- a. True
- b. False

ANSWER: False

119. A researcher who analyzes information collected by the United States Bureau of Census is using secondary data analysis.

- a. True
- b. False

ANSWER: True

120. An advantage of experiments is that they typically take place in natural settings.
