chap	ter	2

Indicate whether the statement is true or false.

1. Capital equipment purchasing involves buying assets intended for use less than one year.

a. True

b. False

2. It is a common and preferred current practice for suppliers to arrange shipment to a purchaser and simply include the transportation cost as part of the purchase cost.

a. True

b. False

3. Buyers use competitive bidding when price is a minor criterion and the required item (or service) has complex material specifications.

a. True

b. False

4. Purchasing's right to evaluate and select suppliers means that sales representatives are not allowed to talk with non-purchasing personnel.

a. True

b. False

5. For standard items, the negotiation process is an efficient method to purchase relatively straightforward requirements.

a. True

b. False

6. The process that buyers use to select suppliers does not vary widely depending on the required item and the relationship that a buyer has with its suppliers.

a. True

b. False

7. Material discrepancies usually result from incorrect quantity shipments.

a. True

b. False

8. If the requested item is complex or requires an untested or new production process, purchasing can include additional information or attachments on its RFQ to assist the supplier, which might include detailed blueprints, samples, or technical drawings.

a. True

b. False

9. Contract management should be used to trigger proactive sourcing events only after a contract expires.

a. True

b. False

10. The buyer should assume that the purchasing cycle ends with the receipt of an ordered item or the selection of a supplier.
